

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2021

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 1-11388

VIVEVE MEDICAL, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

04-3153858

(I.R.S. Employer Identification No.)

345 Inverness Drive South

Building B, Suite 250

Englewood, CO 80112

(Address of principal executive offices)

(Zip Code)

(720) 696-8100

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading symbol(s)	Name of each exchange on which registered
Common Stock	VIVE	Nasdaq Capital Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See definition of "accelerated filer," "large accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 11, 2021, the issuer had 10,591,716 shares of common stock, par value \$0.0001 per share, outstanding.

NOTE ABOUT FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (the "Quarterly Report") contains forward-looking statements that involve substantial risks and uncertainties. All statements contained in this Quarterly Report other than statements of historical fact, including statements regarding our future results of operations and financial position, our business strategy and plans, and our objectives for future operations, are forward-looking statements. The words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," and similar expressions are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and trends that we believe may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives, and financial needs. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in Part II, Item 1A. "Risk Factors" in this Quarterly Report. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, the future events and trends discussed in this Quarterly Report may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements.

You should read this Quarterly Report on Form 10-Q and the documents that we have filed as exhibits to this Quarterly Report on Form 10-Q completely and with the understanding that our actual future results, performance or achievements may be materially different from what we expect. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements, except as required by law. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

Unless expressly indicated or the context requires otherwise, the terms "Viveve Medical," the "Company," "we," "us," and "our" in this document refer to Viveve Medical, Inc., a Delaware corporation, and, where appropriate, its wholly owned subsidiaries.

VIVEVE MEDICAL, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. The Company and Basis of Presentation

Viveve Medical, Inc. (“Viveve Medical”, the “Company”, “we”, “our”, or “us”) designs, develops, manufactures and markets a platform medical technology, which we refer to as *Cryogen-cooled Monopolar RadioFrequency*, or CMRF. Our proprietary CMRF technology is delivered through a radiofrequency generator, handpiece and treatment tip, which collectively, we refer to as the Viveve® System. Viveve Medical competes in the women’s intimate health industry in some countries by marketing the Viveve System as a way to improve the overall well-being and quality of life of women suffering from vaginal introital laxity, for improved sexual function, or stress urinary incontinence, depending on the relevant country-specific clearance or approval. In the United States, the Viveve System is currently indicated for use in general surgical procedures for electrocoagulation and hemostasis.

Purchase Agreement with LPC – Reduction of Warrant Exercise Price

On May 4, 2021, pursuant to the provisions under the Purchase Agreement as amended, LPC purchased 250,000 shares at \$2.817 per share of the Company’s common stock. As a result, the per share exercise price of our previously issued Series B, A-2 and B-2 common stock warrants was automatically reduced from \$3.40 to \$2.817 pursuant to the terms of the warrants. There was no change to the quantity of warrant shares. As a result of this reduction of warrant exercise price, the Company recognized a modification charge of \$86,000.

2021 Public Offering

On January 19, 2021, the Company closed an upsized underwritten public offering of units (the “January 2021 Offering”) for gross proceeds of approximately \$27,600,000, which included the exercise of the underwriter’s over-allotment option to purchase additional shares and warrants, prior to deducting underwriting discounts and commissions and offering expenses payable by Viveve.

The offering comprised of: (1) 4,607,940 Class A Units, priced at a public offering price of \$3.40 per Class A Unit, with each unit consisting of one share of common stock and one warrant to purchase one share of common stock, at an exercise price of \$3.40 per share that expires on the fifth anniversary of the date of issuance; and (2) 2,450,880 Class B Units, priced at a public offering price of \$3.40 per Class B Unit, with each unit consisting of one share of Series C convertible preferred stock and one warrant to purchase one share of common stock, at an exercise price of \$3.40 per share that expires on the fifth anniversary of the date of issuance. The underwriter exercised an over-allotment option to purchase an additional 1,058,820 shares of common stock and warrants to purchase 1,058,820 shares of common stock in the offering. The net proceeds to the Company, after deducting underwriting discounts and commissions and offering expenses payable by the Company, were approximately \$25,122,000.

A total of 2,450,880 shares of Series C convertible preferred stock were issued in the January 2021 Offering. In January 2021, all Series C convertible preferred stock were converted into common stock and there are no remaining shares of Series C convertible preferred stock outstanding.

Warrants to purchase a total of 8,117,640 shares of common stock were issued in the January 2021 Offering. In February and March 2021, holders exercised January 2021 warrants to purchase 12,760 shares of common stock for aggregate exercise proceeds to the Company of approximately \$43,000. As of June 30, 2021, there were January 2021 warrants to purchase a total of 8,104,880 shares of common stock still remaining and outstanding.

Series C Convertible Preferred Stock

In connection with the closing of the January 2021 Offering, the Company filed the Certificate of Designation of Preferences, Rights and Limitations of Series C convertible preferred stock (the “Series C Certificate of Designation”) with the Secretary of State of the State of Delaware. The Series C Certificate of Designation provides for the issuance of the shares of Series C convertible preferred stock. The shares of Series C convertible preferred stock rank on par with the shares of the common stock, in each case, as to dividend rights and distributions of assets upon liquidation, dissolution or winding up of the Company.

With certain exceptions, as described in the Series C Certificate of Designation, the shares of Series C convertible preferred stock have no voting rights.

Each share of Series C convertible preferred stock is convertible at any time at the holder's option into one share of common stock, which conversion ratio will be subject to adjustment for stock splits, stock dividends, distributions, subdivisions and combinations and other similar transactions as specified in the Series C Certificate of Designation.

All Series C convertible preferred stock have been converted into common stock and there are no remaining shares outstanding.

November 2019 Offering – Reduction of Warrant Exercise Price

On January 19, 2021, the Company closed a public offering at an effective price of \$3.40 per share of its common stock. As a result, the per share exercise price of our previously issued Series B, A-2 and B-2 common stock warrants was automatically reduced pursuant to the terms of the warrants. The exercise price for Series B warrants was reduced from \$6.10 per share to \$3.40 per share. The exercise price for Series A-2 and B-2 warrants was reduced from \$6.371 per share to \$3.40 per share. There was no change to the quantity of warrant shares. As a result of this reduction of warrant exercise price, the Company recognized a modification charge of \$287,000.

Elimination of Series A Convertible Preferred Stock

On December 16, 2020, the Company filed a Certificate of Elimination (the "Certificate of Elimination") with the Delaware Secretary of State with respect to 547,345 authorized shares of Series A convertible preferred stock, par value \$0.0001 per share. The Series A convertible preferred stock had been designated pursuant to the Certificate of Designation of Preferences, Rights and Limitations of Series A Convertible Preferred Stock filed with the Delaware Secretary of State on November 25, 2019. As of the date of the filing of the Certificate of Elimination, no shares of Series A convertible preferred stock were outstanding. Upon filing the Certificate of Elimination, the 547,345 authorized shares of Series A convertible preferred stock were returned to the status of authorized but unissued shares of preferred stock of the Company, without designation as to series or rights, preferences, privileges or limitations.

Purchase Agreement with Lincoln Park Capital, LLC

The Company previously entered into a purchase agreement on June 8, 2020 (the "Purchase Agreement") with Lincoln Park Capital Fund, LLC ("LPC"), which provided that the Company had the right, in its sole discretion, to sell to LPC, and LPC has committed to purchase from us, up to \$10,000,000 of our common stock, subject to certain limitations, from time to time over a 30-month period pursuant to the terms of the Purchase Agreement. The Purchase Agreement limited the Company's sale of shares of common stock to LPC to 301,762 shares of common stock (after giving effect to the Company's reverse stock split in December 2020), representing 19.99% of the shares of the common stock outstanding on the date of the Purchase Agreement unless (i) shareholder approval was obtained to issue more than such amount or (ii) the average price of all applicable sales of common stock to LPC under the Purchase Agreement equaled or exceeded \$6.46 per share (after giving effect to the Company's reverse stock split). On June 9, 2020, LPC purchased 52,500 shares of common stock at a price per share of \$6.50 (the "Initial Purchase Shares") under the Purchase Agreement for gross proceeds of approximately \$341,000.

On March 31, 2021, the Company and LPC entered into a First Amendment to the Purchase Agreement. The amendment limited the Company's sale of shares of common stock to LPC from the date thereof to 2,068,342 shares of shares of common stock, representing 19.99% of the shares of the common stock outstanding on the date of amendment unless (i) shareholder approval is obtained to issue more than such amount or (ii) the average price of all applicable sales of common stock to LPC under the Purchase Agreement, as amended equals or exceeds \$2.99 per share. On May 4, 2021, LPC purchased 250,000 shares of common stock at price per share of \$2.817 under the Purchase Agreement for gross proceeds of approximately \$704,000.

As of June 30, 2021, the equity facility with LPC has a remaining financing commitment of approximately \$9,000,000.

2020 Warrant Offering

On April 15, 2020, the Company reduced the exercise price of the outstanding Series A warrants and Series B warrants from \$15.50 per share to \$6.10 per share. On April 16, 2020, the Company entered into inducement letter agreements with certain institutional and accredited holders of Series A warrants and Series B warrants pursuant to which such holders agreed to exercise Series A warrants to purchase 482,059 shares of common stock and Series B warrants to purchase 24,279 shares of common stock for aggregate exercise proceeds to the Company of approximately \$3,089,000. In conjunction, the Company also agreed to issue new Series A-2 warrants to purchase up to 482,059 shares of common stock as an inducement for the exercise of Series A warrants, and new Series B-2 warrants to purchase up to 24,279 shares of common stock as an inducement for the exercise of Series B warrants, in each case at an exercise price of \$6.371 per share and for a term of five years. The transaction closed on April 20, 2020. Transaction costs in connection with the 2020 Warrant Offering totaled approximately \$326,000. (See Note 11 – Common Stock for the calculation of the modification expense for the Series A and B warrants and the issuance of Series A-2 and B-2 warrants.) As of June 30, 2021, there were Series A-2 warrants to purchase a total of 392,830 shares of common stock and Series B-2 warrants to purchase a total of 20,380 shares of common stock still remaining and outstanding.

Interim Unaudited Financial Information

The accompanying unaudited condensed consolidated financial statements of Viveve Medical have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and pursuant to the instructions to Form 10-Q and Article 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the condensed consolidated financial statements have been included.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2020, which was filed with the Securities and Exchange Commission on March 18, 2021. The results of operations for the six months ended June 30, 2021 are not necessarily indicative of the results for the year ending December 31, 2021 or any future interim period.

Liquidity and Management Plans

The Company has adopted the Financial Accounting Standards Board’s (“FASB”) Accounting Standard Codification (“ASC”) Topic 205-40, Presentation of Financial Statements – Going Concern, which requires that management evaluate whether there are relevant conditions and events that, in the aggregate, raise substantial doubt about the entity’s ability to continue as a going concern and to meet its obligations as they become due within one year after the date that the financial statements are issued.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. However, since inception, the Company has sustained significant operating losses and such losses are expected to continue for the foreseeable future. The Company had an accumulated deficit of \$229,667,000 as of June 30, 2021. Additionally, the Company used \$6,988,000 in cash for operations in the six months ended June 30, 2021. However, the Company’s financing activities provided cash of \$25,934,000 during the six months ended June 30, 2021 including \$25,122,000 in net proceeds from the January 2021 Offering, \$633,000 in net proceeds from purchase of common shares under the Purchase Agreement with LPC and \$179,000 in proceeds from the exercise of common warrants. As of June 30, 2021, the Company had cash and cash equivalents of \$25,391,000 and working capital of \$27,753,000. Accordingly, management expects that our cash along with the remaining equity financing commitment from LPC of approximately \$9,000,000 will be sufficient to fund our activities for at least the next twelve months through August 2022; however, we may require additional funds to fully implement our plan of operation.

To fund further operations, the Company may need to raise additional capital. The Company may obtain additional financing in the future through the issuance of its common stock, or through other equity or debt financings. The Company’s ability to continue as a going concern or meet the minimum liquidity requirements in the future is dependent on its ability to raise significant additional capital, of which there can be no assurance. If the necessary financing is not obtained or achieved, the Company will likely be required to reduce its planned expenditures, which could have an adverse impact on the results of operations, financial condition and the Company’s ability to achieve its strategic objective. There can be no assurance that financing will be available on acceptable terms, or at all.

2. Summary of Significant Accounting Policies

Financial Statement Presentation

The condensed consolidated financial statements include the accounts of the Company and our wholly-owned subsidiaries, Viveve, Inc. and Viveve BV. All significant intercompany accounts and transactions have been eliminated in consolidation.

Reverse Stock Split - December 2020

The Company effected a 1-for-10 reverse stock split of its common stock that became effective after market close on December 1, 2020. The reverse stock split uniformly affected all issued and outstanding shares of the Company's common stock. The reverse stock split provided that every ten shares of the Company's issued and outstanding common stock was automatically combined into one issued and outstanding share of common stock, without any change in par value per share. The number of authorized shares of common stock remained at 75,000,000 shares.

As a result of the reverse stock split, proportionate adjustments were made to the per share exercise price and/or the number of shares issuable upon the exercise or vesting of all then outstanding stock options, deferred restricted stock awards and warrants, which will result in a proportional decrease in the number of shares of the Company's common stock reserved for issuance upon exercise or vesting of such stock options, deferred restricted stock awards and warrants, and, in the case of stock options and warrants, a proportional increase in the exercise price of all such stock options and warrants. In addition, the number of shares reserved for issuance under the Company's equity compensation plans immediately prior to the effective date will be reduced proportionately. The Company issued 5,931 shares of common stock as a result of this adjustment.

No fractional shares were issued as a result of the reverse stock split. Stockholders of record who would otherwise have been entitled to receive a fractional share were rounded up to the nearest whole number.

All of the share numbers, share prices, and exercise prices have been adjusted, on a retroactive basis, to reflect this 1-for-10 reverse stock split.

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses and the related disclosure of contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. In addition, any change in these estimates or their related assumptions could have an adverse effect on our operating results.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less, at the time of purchase, to be cash equivalents. The Company's cash and cash equivalents are deposited in demand accounts primarily at one financial institution. Deposits in this institution may, from time to time, exceed the federally insured amounts.

Concentration of Credit Risk and Other Risks and Uncertainties

To achieve profitable operations, the Company must successfully develop, manufacture, and market its products. There can be no assurance that any such products can be developed or manufactured at an acceptable cost and with appropriate performance characteristics, or that such products will be successfully marketed. These factors could have a material adverse effect upon the Company's financial results, financial position, and future cash flows.

Most of the Company's products to date require clearance or approvals from the U.S. Food and Drug Administration ("FDA") or other international regulatory agencies prior to commencing commercial sales. There can be no assurance that the Company's products will receive any of these required clearances or approvals or for the indications requested. If the Company was denied such clearances or approvals or if such clearances or approvals were delayed, it would have a material adverse effect on the Company's financial results, financial position and future cash flows.

The Company is subject to risks common to companies in the medical device industry including, but not limited to, new technological innovations, dependence on key personnel, protection of proprietary technology, compliance with government regulations, uncertainty of market acceptance of products, product liability, and the need to obtain additional financing. The Company's ultimate success is dependent upon its ability to raise additional capital and to successfully develop and market its products.

The Company designs, develops, manufactures and markets a medical device that it refers to as the Viveve System, which is intended for the non-invasive treatment of vaginal introital laxity, for improved sexual function, for vaginal rejuvenation, for use in general surgical procedures for electrocoagulation and hemostasis, and stress urinary incontinence, depending on the relevant country-specific clearance or approval. The Viveve System consists of three main components: a radiofrequency generator housed in a table-top console, a reusable handpiece and a single-use treatment tip. Included with the system are single-use accessories (e.g. return pad, coupling fluid), as well as a cryogen canister that can be used for approximately four to five procedures, and a foot pedal. The Company outsources the manufacture and repair of the Viveve System to a single contract manufacturer. Also, certain other components and materials that comprise the device are currently manufactured by a single supplier or a limited number of suppliers. A significant supply interruption or disruption in the operations of the contract manufacturer or these third-party suppliers would adversely impact the production of our products for a substantial period of time, which could have a material adverse effect on our business, financial condition, operating results and cash flows.

In North America, the Company sells its products primarily through a direct sales force to health care practitioners. Outside North America, the Company sells through an extensive network of distribution partners. During the three months ended June 30, 2021, one distributor accounted for 34% of the Company's revenue. During the three months ended June 30, 2020, three distributors, collectively, accounted for 74% of the Company's revenue. During the six months ended June 30, 2021, one distributor accounted for 26% of the Company's revenue. During the six months ended June 30, 2020, one distributor accounted for 49% of the Company's revenue.

There were no direct sales customers that accounted for more than 10% of the Company's revenue during the three and six months ended June 30, 2021 and 2020.

As of June 30, 2021, one distributor accounted for 50% of total accounts receivable, net. As of December 31, 2020, one distributor accounted for 37% of total accounts receivable, net.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are recorded at the invoiced amount and are not interest bearing. Our typical payment terms vary by region and type of customer (distributor or physician). Occasionally, payment terms of up to six months may be granted to customers with an established history of collections without concessions. Should we grant payment terms greater than six months or terms that are not in accordance with established history for similar arrangements, revenue would be recognized as payments become due and payable assuming all other criteria for revenue recognition have been met. The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. The Company makes ongoing assumptions relating to the collectability of its accounts receivable in its calculation of the allowance for doubtful accounts. In determining the amount of the allowance, the Company makes judgments about the creditworthiness of customers based on ongoing credit evaluations and assesses current economic trends affecting its customers that might impact the level of credit losses in the future and result in different rates of bad debts than previously seen. The Company also considers its historical level of credit losses. The allowance for doubtful accounts was \$139,000 as of June 30, 2021 and \$124,000 as of December 31, 2020.

During the three month and six months ended June 30, 2021, the Company wrote-off accounts receivable totaling approximately \$64,000 and \$74,000, respectively, primarily related to U.S. customers. During the three and six months ended June 30, 2020, the Company wrote-off accounts receivable totaling approximately \$173,000 primarily related to Latin America distributors in connection with the Company's shift in its international business model and the withdrawal from certain countries in Latin America.

Revenue from Contracts with Customers

Revenue consists primarily of the sale of the Viveve System, single-use treatment tips and ancillary consumables. The Company applies the following five steps: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when a performance obligation is satisfied. The Company considers customer purchase orders to be the contracts with a customer. Revenues, net of expected discounts, are recognized when the performance obligations of the contract with the customer are satisfied and when control of the promised goods are transferred to the customer, typically when products, which have been determined to be the only distinct performance obligations, are shipped to the customer. Expected costs of assurance warranties and claims are recognized as expense. Revenue is recognized net of any sales taxes from the sale of the products.

Rental revenue is generated through the lease of the Viveve System. The Company's operating leases for the Viveve System generally have a rental period of six to nine months and can be extended or terminated by the customer after that time or the Viveve System could be purchased by the customer. Rental revenue on those operating leases is recognized on a straight-line basis over the terms of the underlying leases. The Company began this rental program in the quarter ended June 30, 2019. For the three and six months ended June 30, 2021, rental revenue recognized during the period was \$323,000 and \$689,000, respectively. For the three and six months ended June 30, 2020, rental revenue recognized during the period was \$6,000 and \$427,000, respectively. As of June 30, 2021 and December 31, 2020, the Company had deferred revenue in the amounts of \$355,000 and \$345,000, respectively, related to its rental program, which is included in accrued liabilities on the condensed consolidated balance sheets. During the three and six months ended June 30, 2021, the Company recognized revenue of \$66,000 and \$296,000 which was deferred revenue as of December 31, 2020.

Late in the first quarter of 2020, the negative impact of the COVID-19 pandemic on medical facilities and practitioners was in full effect in the United States. Federal, regional, and local government and public health agencies issued directives halting performance of non-essential medical treatments and elective procedures in an effort to combat the spread of the coronavirus and protect public health and safety. As a result, a large percentage of Viveve's U.S. customers either temporarily closed their medical practices or dramatically reduced services and staff. The consequence has been both a public health and economic crisis that is continuing for existing and prospective Viveve customers. In a supportive partnership response, Viveve contacted all of its subscription customers and provided them with a three-month deferral of the rental payment. Although clinics in various regions are beginning to re-open and provide limited services, we anticipate that until the COVID-19 pandemic abates, more practices begin to re-open and elective patient's safety concerns are reduced, that we will continue to experience reduced revenue from existing subscription customers, as well as a greatly reduced number of new and prospective customers.

In connection with the lease of the Viveve System, the Company offers single-use treatment tips and ancillary consumables that are considered non-lease components. In the contracts with lease and non-lease components, the Company follows the relevant guidance in ASC 606, Revenue from Contracts with Customers, to determine how to allocate contractual consideration between the lease and non-lease components.

Sales of our products are subject to regulatory requirements that vary from country to country. The Company has regulatory clearance for differing indications, or can sell its products without a clearance, in many countries throughout the world, including countries within the following regions: North America, Asia Pacific, Europe, the Middle East and Latin America. In North America, we market and sell primarily through a direct sales force. Outside of North America, we market and sell primarily through distribution partners.

The Company does not provide its customers with a right of return.

Customer Advance Payments

From time to time, customers will pay for a portion of the products ordered in advance. Upon receipt of such payments, the Company records the customer advance payment as a component of accrued liabilities. The Company will remove the customer advance payment from accrued liabilities when revenue is recognized upon shipment of the products.

Contract Assets and Liabilities

The Company continually evaluates whether the revenue generating activities and advanced payment arrangements with customers result in the recognition of contract assets or liabilities. No such assets existed as of June 30, 2021 or December 31, 2020. The Company had customer contract liabilities in the amount of \$3,000 and \$17,000 that performance had not yet been delivered to its customers as of June 30, 2021 and December 31, 2020, respectively. Contract liabilities are recorded in accrued liabilities on the condensed consolidated balance sheet.

Separately, accounts receivable, net represents receivables from contracts with customers.

Significant Financing Component

The Company applies the practical expedient to not make any adjustment for a significant financing component if, at contract inception, the Company does not expect the period between customer payment and transfer of control of the promised goods or services to the customer to exceed one year. During the three and six months ended June 30, 2021 and 2020, the Company did not have any contracts for the sale of its products with its customers with a significant financing component.

Contract Costs

The Company began its rental program in the quarter ended June 30, 2019. The Company expects that commissions paid to obtain subscriptions are recoverable and has therefore capitalized them as a contract costs in the amount of \$38,000 and \$32,000 at June 30, 2021 and December 31, 2020, respectively. Capitalized commissions are amortized based on the subscription periods to which the assets relate and are included in selling, general and administrative expenses. For the three months ended June 30, 2021 and 2020, the amount of amortization was \$20,000 and \$133,000, respectively. For the six months ended June 30, 2021 and 2020, the amount of amortization was \$34,000 and \$331,000, respectively. There was no impairment loss in relation to the costs capitalized. The Company has elected the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the Company otherwise would have recognized is one year or less.

Shipping and Handling

Shipping costs billed to customers are recorded as revenue. Shipping and handling expense related to costs incurred to deliver product are recognized within cost of goods sold. The Company accounts for shipping and handling activities that occur after control has transferred as a fulfillment cost as opposed to a separate performance obligation, and the costs of shipping and handling are recognized concurrently with the related revenue.

Revenue by Geographic Area

Management has determined that the sales by geography is a key indicator for understanding the Company's financials because of the different sales and business models that are required in the various regions of the world (including regulatory, selling channels, pricing, customers and marketing efforts). The following table presents the revenue from unaffiliated customers disaggregated by geographic area for the three and six months ended June 30, 2021 and 2020 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
North America	\$ 994	\$ 116	\$ 1,919	\$ 804
Asia Pacific	658	588	1,177	1,185
Europe and Middle East	2	-	8	5
Latin America	-	-	-	14
Total	<u>\$ 1,654</u>	<u>\$ 704</u>	<u>\$ 3,104</u>	<u>\$ 2,008</u>

The Company determines geographic location of its revenue based upon the destination of the shipments of its products.

Investments in Unconsolidated Affiliates

The Company uses the equity method to account for its investments in entities that it does not control but have the ability to exercise significant influence over the investee. Equity method investments are recorded at original cost and adjusted periodically to recognize (1) the proportionate share of the investees' net income or losses after the date of investment, (2) additional contributions made and dividends or distributions received, and (3) impairment losses resulting from adjustments to net realizable value. The Company eliminates all intercompany transactions in accounting for equity method investments. The Company records the proportionate share of the investees' net income or losses in equity in earnings of unconsolidated affiliates on the condensed consolidated statements of operations. The Company utilizes a three-month lag in reporting equity income from its investments, adjusted for known amounts and events, when the investee's financial information is not available timely or when the investee's reporting period differs from our reporting period.

The Company assesses the potential impairment of the equity method investments when indicators such as a history of operating losses, a negative earnings and cash flow outlook, and the financial condition and prospects for the investee's business segment might indicate a loss in value. The carrying value of the investments is reviewed annually for changes in circumstances or the occurrence of events that suggest the investment may not be recoverable. No impairment charges have been recorded in the condensed consolidated statements of operations during the three and six months ended June 30, 2021 and 2020.

Product Warranty

The Company's products sold to customers are generally subject to warranties between one and three years, which provides for the repair, rework or replacement of products (at the Company's option) that fail to perform within stated specifications. The Company has assessed the historical claims and, to date, product warranty claims have not been significant.

Accounting for Stock-Based Compensation

Share-based compensation cost is measured at grant date, based on the fair value of the award, and is recognized as expense over the employee's service period. The Company recognizes compensation expense on a straight-line basis over the requisite service period of the award.

The Company determined that the Black-Scholes option pricing model is the most appropriate method for determining the estimated fair value for stock options and purchase rights under the employee stock purchase plan. The Black-Scholes option pricing model requires the use of highly subjective and complex assumptions which determine the fair value of share-based awards, including the option's expected term and the price volatility of the underlying stock.

Equity instruments issued to nonemployees are recorded in the same manner as similar instruments issued to employees.

Comprehensive Loss

Comprehensive loss represents the changes in equity of an enterprise, other than those resulting from stockholder transactions. Accordingly, comprehensive loss may include certain changes in equity that are excluded from net loss. For the three and six months ended June 30, 2021 and 2020, the Company's comprehensive loss is the same as its net loss.

Net Loss per Share

The Company's basic net loss per share is calculated by dividing the net loss attributable to common stockholders by the weighted average number of shares of common stock outstanding for the period. The diluted net loss per share is computed by giving effect to all potentially dilutive common stock equivalents outstanding during the period. For purposes of this calculation, stock options and warrants to purchase common stock and restricted common stock awards are considered common stock equivalents. For periods in which the Company has reported net losses, diluted net loss per share is the same as basic net loss per share since dilutive common shares are not assumed to have been issued if their effect is anti-dilutive.

The following securities were excluded from the calculation of net loss per share because the inclusion would be anti-dilutive:

	Six Months Ended	
	June 30,	
	2021	2020
Convertible preferred stock:		
Series A convertible preferred stock (a)	-	-
Series B convertible preferred stock (b)	2,489,542	2,201,634
Series C convertible preferred stock (c)	-	-
Warrants to purchase common stock	9,793,599	2,358,329
Stock options to purchase common stock	3,188,628	1,002,400
Deferred restricted common stock units	684,000	-
Deferred restricted common stock awards	232	249

- (a) Each share of Series A convertible preferred stock was convertible at any time at the holder's option into one share of common stock. As of June 30, 2020, all Series A convertible preferred stock had been converted into common stock and there were no remaining shares outstanding. In December 2020, the Company filed a Certificate of Elimination with the Delaware Secretary of State with respect to the authorized shares of Series A convertible preferred stock.

- (b) As of June 30, 2021 and 2020, a total of 38,090 and 33,685 shares of Series B convertible preferred stock were outstanding and convertible into 2,489,542 and 2,201,634 shares of common stock, respectively. Each share of Series B convertible preferred stock is convertible at the holder's option into shares of common stock at a conversion ratio of 1-for-65.36 per share determined by dividing the Series B liquidation amount of \$1,000 per share by the Series B conversion price of \$15.30 per share. However, under the terms of the Series B Preferred Stock and Warrant Purchase Agreement, as amended, CRG will not convert the Series B preferred stock or exercise the CRG warrants until the Company's stockholders act to authorize additional number of shares of common stock sufficient to cover the conversion shares.
- (c) Each share of Series C preferred stock is convertible at any time at the holder's option into one share of common stock. As of June 30, 2021, all Series C convertible preferred stock had been converted into common stock and there are no remaining shares of Series C convertible preferred stock outstanding.

Recently Issued and Adopted Accounting Standards

In December 2019, the FASB issued ASU 2019-12, "Income Taxes (Topic 740)". The amendments in this Update provide further simplification of accounting standards for the accounting for income taxes. Certain exceptions are removed and requirements regarding the accounting for franchise taxes, tax basis of goodwill, and tax law rate changes are made. This guidance is effective for annual reporting periods beginning after December 15, 2020, including interim periods within that reporting period, with early adoption permitted. We adopted this guidance as of January 1, 2021, and the adoption of the guidance did not have a significant impact on the condensed consolidated financial statements.

We have reviewed other recent accounting pronouncements and concluded they are either not applicable to the business, or no material effect is expected on the condensed consolidated financial statements as a result of future adoption.

3. Fair Value Measurements

The Company recognizes and discloses the fair value of its assets and liabilities using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3 measurements). Each level of input has different levels of subjectivity and difficulty involved in determining fair value.

- Level 1 Inputs used to measure fair value are unadjusted quoted prices that are available in active markets for the identical assets or liabilities as of the reporting date. Therefore, determining fair value for Level 1 investments generally does not require significant judgment, and the estimation is not difficult.
- Level 2 Pricing is provided by third party sources of market information obtained through investment advisors. The Company does not adjust for or apply any additional assumptions or estimates to the pricing information received from its advisors.
- Level 3 Inputs used to measure fair value are unobservable inputs that are supported by little or no market activity and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions. The determination of fair value for Level 3 instruments involves the most management judgment and subjectivity.

Assets and liabilities measured at fair value are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires management to make judgments and consider factors specific to the asset or liability.

There were no financial instruments that were measured at fair value on a recurring basis as of June 30, 2021 and December 31, 2020.

The carrying amounts of the Company's financial assets and liabilities, including cash and cash equivalents, accounts receivable, accounts payable, and accrued expenses as of June 30, 2021, and December 31, 2020 approximate fair value because of the short maturity of these instruments. Based on borrowing rates currently available to the Company for loans with similar terms, the carrying value of the note payable approximates fair value.

There were no changes in valuation techniques from prior periods.

4. Investment in Limited Liability Company

On August 8, 2017, the Company entered into an exclusive Distributorship Agreement (the “Distributorship Agreement”) with InControl Medical, LLC (“ICM”), a Wisconsin limited liability company focused on women’s health, pursuant to which the Company will directly market, promote, distribute and sell ICM’s products to licensed medical professional offices and hospitals in North America.

Under the terms of the Distributorship Agreement, ICM agreed to not directly or indirectly appoint or authorize any third party to market, promote, distribute or sell any of the licensed products to any licensed medical professional offices and hospitals in the United States. In exchange, the Company agreed to not market, promote, distribute or sell (or contract to do so) any product which substantially replicates all or almost all of the key features of the licensed products. The terms of the Distribution Agreement also included a minimum purchase requirement to purchase a certain quantity of ICM products per month. In addition, the parties agreed to certain mutual marketing obligations to promote sales of the licensed products. During the three months ended June 30, 2021 and 2020, the Company has purchased 100 and 120 units of ICM products for approximately \$12,000 and \$10,000, respectively. During the six months ended June 30, 2021 and 2020, the Company has purchased 100 and 240 units of ICM products for approximately \$12,000 and \$20,000, respectively. As of June 30, 2021, the Company has purchased approximately 5,385 units of ICM products. The Company paid ICM approximately \$10,000 and \$10,000 for product related costs during the three months ended June 30, 2021 and 2020, respectively. The Company paid ICM approximately \$10,000 and \$20,000 for product-related costs during the six months ended June 30, 2021 and 2020, respectively. There were no amounts due to ICM for the accounts payable as of June 30, 2021 and December 31, 2020.

In connection with the Distributorship Agreement, the Company also entered into a Membership Unit Subscription Agreement with ICM and the associated limited liability company operating agreement of ICM, pursuant to which the Company invested \$2,500,000 in, and acquired membership units of, ICM. This investment has been recorded in investment in a limited liability company in the condensed consolidated balance sheets. The Company used the equity method to account for the investment in ICM because the Company does not control it but has the ability to exercise significant influence over it. As of June 30, 2021, the Company owned approximately 7% ownership interest in ICM. The Company recognizes its allocated portion of ICM’s results of operations on a three-month lag due to the timing of financial information. For the three months ended June 30, 2021 and 2020, the allocated net loss from ICM’s operations was \$79,000 and \$86,000, respectively. For the six months ended June 30, 2021 and 2020, the allocated net loss from ICM’s operations was \$155,000 and \$268,000, respectively. The allocated net loss from ICM’s operations was recorded as loss from minority interest in limited liability company in the condensed consolidated statements of operations.

In February 2019, the Company executed a mutual termination of the Distributorship Agreement with ICM. As a result, the Company no longer has a minimum purchase requirement to purchase a certain quantity of ICM products per month.

5. Accrued Liabilities

Accrued liabilities consisted of the following as of June 30, 2021 and December 31, 2020 (in thousands):

	<u>June 30, 2021</u>	<u>December 31, 2020</u>
Accrued bonuses	528	744
Accrued payroll and other related expenses	463	473
Accrued clinical trial costs	382	91
Deferred revenue - subscription rental program	355	345
Current operating lease liabilities	206	132
Accrued professional fees	193	290
Accrued sales commission	50	37
Accrued inventory	-	87
Other accruals	115	217
Total accrued liabilities	<u>\$ 2,292</u>	<u>\$ 2,416</u>

6. Note Payable

On May 22, 2017, the Company entered into a Term Loan Agreement as amended on December 12, 2017 and November 29, 2018 (collectively the “2017 Loan Agreement”) with affiliates of CRG LP (“CRG”). The credit facility consists of \$20,000,000 drawn at closing and access to additional funding of up to an aggregate of \$10,000,000 for a total of \$30,000,000 available under the credit facility. On December 29, 2017, the Company accessed the remaining \$10,000,000 available under the credit facility.

On November 12, 2019, the Company and CRG amended the 2017 Loan Agreement (the “Amendment No. 3”). In connection with the amendment, the Company converted approximately \$28,981,000 of the outstanding principal amount under the term loan plus accrued interest, the prepayment premium and the back-end facility fee for an aggregate amount of converted debt obligations of approximately \$31,300,000. The debt obligations converted into 31,300 shares of the newly authorized Series B convertible preferred stock and warrants to purchase up to 989,379 shares of common stock were also issued. The warrants have a term of 5 years and an exercise price equal to 120% of the Series convertible B preferred stock conversion price of \$15.30 or \$18.36 per share. (See Note 11 – Common Stock.) CRG entered into a one year lock up agreement on all securities that it holds.

The Amendment No. 3 to the 2017 Loan Agreement addressed, among other things:

- repayment provisions were amended such that repayment is permitted only with, or after, the redemption in full of the Series B convertible preferred stock issued to CRG;
- the interest only payment period and the period during which the Company may elect to pay the full interest in PIK interest payments was extended through the 23rd date after the first payment date. Pursuant to the amendment, CRG shall consent to the payment of such interest in the form of PIK loans, provided that (i) as of such payment date, no default shall have occurred and be continuing, and (ii) the principal amount of each PIK loan shall accrue interest in accordance with the provisions of the 2017 Loan Agreement;
- modified certain of the covenants, including (i) to permit issuance of the Series B convertible preferred stock and any preferred stock issued in the equity financing and the exercise and performance by the Company of its rights and obligations in connection with such CRG preferred stock and any preferred stock issued in the equity financing, (ii) eliminate the Company’s ability to enter into permitted acquisitions, (iii) further restrict the incurrence of additional indebtedness and removal of the equity cure right, and (iv) eliminate the minimum revenue requirement; and
- the back-end facility fee on the aggregate remaining principal balance on the term loan shall be increased from 5% to 25%.

Pursuant to the Amendment No. 3, the Company paid interest in-kind of \$148,000 and \$289,000 during the three and six months ended June 30, 2021 which was added to the total outstanding principal loan amount. During the three and six months ended June 30, 2020, the Company paid interest in-kind of \$130,000 and \$256,000, respectively, which was added to the total outstanding principal loan amount.

As of June 30, 2021, the Company was in compliance with all covenants.

As of June 30, 2021 and December 31, 2020, \$4,809,000 and \$4,518,000, respectively, was recorded on the condensed consolidated balance sheets, as note payable, noncurrent portion, which is net of the remaining unamortized debt discount. The term loan has a maturity date of March 31, 2023.

As of June 30, 2021, future minimum payments under the note payable were as follows (in thousands):

Year Ending December 31,	
2021 (remaining 6 months)	\$ -
2022	-
2023	5,992
Total payments	5,992
Less: Amount representing interest	(1,176)
Present value of obligations	4,816
Less: Unamortized debt discount	(7)
Note payable, noncurrent portion	<u>\$ 4,809</u>

7. Paycheck Protection Program Loan

The Paycheck Protection Program (“PPP”) was established under the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) and is administered by the U.S. Small Business Administration (“SBA”). On April 24, 2020, Viveve, Inc. (“Viveve”), a wholly-owned subsidiary of the Company, entered into a promissory note evidencing an unsecured loan in the aggregate amount of approximately \$1,343,000 made to Viveve under the PPP (the “PPP Loan”). The PPP Loan to Viveve is being made through Western Alliance Bank (“WAB”). The interest rate on the PPP Loan is 1.00% and the term is two years. In accordance with the updated Small Business guidance, the PPP Loan was modified so that, beginning ten months from the date of the PPP Loan, Viveve is required to make monthly payments of principal and interest. The promissory note evidencing the PPP Loan contains customary events of default relating to, among other things, payment defaults or breaching the terms of the PPP Loan documents. The occurrence of an event of default may result in the repayment of all amounts outstanding, collection of all amounts owing from Viveve, or filing suit and obtaining judgment against Viveve. Under the terms of the CARES Act, PPP Loan recipients can apply for and be granted forgiveness for all or a portion of the loan granted under the PPP. Such forgiveness will be determined, subject to limitations, based on the use of loan proceeds for payment of payroll costs and any payments of mortgage interest, rent, and utilities. No assurance is provided that Viveve will obtain forgiveness of the PPP Loan in whole or in part.

In October 2020, the Company was notified that the terms of its PPP Loan with WAB were modified. The amount of time that the Company had to spend the proceeds of the PPP Loan (the “covered period”) was extended from 8 weeks to 24 weeks. The date to begin repaying unforgiven portions of the PPP Loan was also extended from six months after the funding date to up to 10 months after the end of the covered period (approximately 16 months from the funding date) depending on when the Company applies for forgiveness. The SBA will also cover interest on the forgiveness portion of the loan during this period. There was no change to the maturity date of the loan. All PPP Loans must be repaid or forgiven within two years after the funding date. The Company submitted its PPP Loan forgiveness application to the SBA in October 2020.

In April 2021, the Company received notification that the SBA requested a review of the loan application, forgiveness application, and supporting material for the PPP Loan.

In May 2021, the Company was notified by WAB that its request for forgiveness of the PPP Loan had been approved in full. The total principal amount and the accrued interest through the forgiveness payment date was forgiven. The Company has recognized a gain on the extinguishment of debt in the condensed consolidated statements of operations during the three and six months ended June 30, 2021 in the amount of \$1,358,000.

8. Leases

Lessee:

The following information pertains to those operating lease agreements where the Company is the lessee.

On February 1, 2017, the Company entered into a sublease agreement (the “Sublease”) for approximately 12,400 square feet of building space for the relocation of the Company’s corporate headquarters to Englewood, Colorado (the “Sublease Premises”), which was effective as of January 26, 2017. The lease term commenced on June 1, 2017 and was to terminate in May 2021. The Company relocated its corporate headquarters from Sunnyvale, California to Englewood, Colorado in June 2017.

The monthly base rent under the Sublease was equal to \$20.50 per rentable square foot of the Sublease Premises during the first year. The monthly base rent was equal to \$21.12 and \$21.75 per rentable square foot during the second and third years, respectively. In connection with the execution of the Sublease, the Company also agreed to pay a security deposit of approximately \$22,000. The Company was also provided an allowance of approximately \$88,000 for certain tenant improvements relating to the engineering, design and construction of the Sublease Premises which has been reimbursed.

In March 2021, the Company amended the Sublease for its office building space. The lease term was extended for a period of 84 months and will terminate on March 31, 2024. The monthly gross rent for the first, second and third years of the lease extension is \$21,028, \$21,643 and \$22,258 per month, respectively. The Company was also provided a rent abatement for the month of June 2021. Additionally, the sublandlord has agreed to perform certain construction, repair, maintenance or other tenant improvements to the Subleased Premises with estimated costs of approximately \$19,000.

In September 2018, the Company entered into a 36-month noncancelable operating lease agreement for office equipment. The lease commenced on September 20, 2018. The monthly lease payment is approximately \$3,000.

Operating lease rentals are expensed on a straight-line basis over the life of the lease beginning on the date the Company takes possession of the property. At lease inception, the Company determines the lease term by assuming the exercise of those renewal options that are reasonably assured. The lease term is used to determine whether a lease is financing or operating and is used to calculate straight-line rent expense. Additionally, the depreciable life of leasehold improvements is limited by the expected lease term. Leases with an initial term of 12 months or less are not recorded on the balance sheet; the Company recognizes lease expense for these leases on a straight-line basis over the lease term.

The following table reflects the Company's lease assets and lease liabilities at June 30, 2021 and December 31, 2020 (in thousands):

	<u>June 30, 2021</u>	<u>December 31, 2020</u>
Assets:		
Operating lease right-of-use assets	\$ 630	\$ 130
Liabilities:		
Current operating lease liabilities	\$ 206	\$ 132
Noncurrent operating lease liabilities	441	-
	<u>\$ 647</u>	<u>\$ 132</u>

The operating lease right-of-use assets are included in other assets on the condensed consolidated balance sheets. The operating lease liabilities are included in accrued liabilities and other noncurrent liabilities on the condensed consolidated balance sheets.

The operating leases expense for the three months ended June 30, 2021 and 2020 was \$69,000 and \$73,000, respectively. The operating leases expense for the six months ended June 30, 2021 and 2020 was \$149,000 and \$149,000, respectively.

As of June 30, 2021, the maturity of operating lease liabilities was as follows (in thousands):

Year Ending December 31,	
2021 (remaining 6 months)	\$ 138
2022	279
2023	285
2024	66
Total lease payments	768
Less: Amount representing interest	(121)
Present value of lease liabilities	<u>\$ 647</u>

The weighted average remaining lease term was approximately 32 months as of June 30, 2021. The weighted average discount rate for the three months ended June 30, 2021 was 12.5%.

Lessor:

The following information pertains to those operating lease agreements where the Company is the lessor.

As of June 30, 2021, minimum future rentals from customers on non-cancellable operating leases of Viveve Systems were as follows (in thousands):

Year Ending December 31,	
2021 (remaining 6 months)	\$ 303
Thereafter	52
Total	<u>\$ 355</u>

As of June 30, 2021, \$483,000 of property and equipment is related to these operating lease agreements. The depreciation expense for that property and equipment for the three and six months ended June 30, 2021 is \$60,000 and \$170,000, respectively. The depreciation expense for that property and equipment for the three and six months ended June 30, 2020 is \$115,000 and \$228,000, respectively.

9. Commitments and Contingencies

Indemnification Agreements

The Company enters into standard indemnification arrangements in the ordinary course of business. Pursuant to these arrangements, the Company indemnifies, holds harmless and agrees to reimburse the indemnified parties for losses suffered or incurred by the indemnified party, in connection with performance of services within the scope of the agreement, breach of the agreement by the Company, or noncompliance of regulations or laws by the Company, in all cases provided the indemnified party has not breached the agreement and/or the loss is not attributable to the indemnified party's negligence or willful malfeasance. The term of these indemnification agreements is generally perpetual any time after the execution of the agreement. The maximum potential amounts of future payments the Company could be required to make under these arrangements is not determinable. The Company has never incurred costs to defend lawsuits or settle claims related to these indemnification agreements. As a result, the Company believes the estimated fair value of these agreements is minimal.

Loss Contingencies

The Company is or has been subject to proceedings, lawsuits and other claims arising in the ordinary course of business. The Company evaluates contingent liabilities, including threatened or pending litigation, for potential losses. If the potential loss from any claim or legal proceeding is considered probable and the amount can be estimated, the Company accrues a liability for the estimated loss. Because of uncertainties related to these matters, accruals are based upon the best information available. For potential losses for which there is a reasonable possibility (meaning the likelihood is more than remote but less than probable) that a loss exists, the Company will disclose an estimate of the potential loss or range of such potential loss or include a statement that an estimate of the potential loss cannot be made. As additional information becomes available, the Company reassesses the potential liability related to pending claims and litigation and may revise its estimates, which could materially impact its condensed consolidated financial statements. Management does not believe that the outcome of any outstanding legal matters will have a material adverse effect on the Company's consolidated financial position, results of operations and cash flows.

10. Preferred Stock

Series A Convertible Preferred Stock

On December 16, 2020, the Company filed a Certificate of Elimination with the Delaware Secretary of State with respect to the authorized shares of Series A convertible preferred stock. As of the date of the filing of the Certificate of Elimination, no shares of Series A convertible preferred stock were outstanding. Upon filing the Certificate of Elimination, the 547,345 authorized shares of Series A convertible preferred stock were returned to the status of authorized but unissued shares of preferred stock of the Company, without designation as to series or rights, preferences, privileges or limitations.

Series B Convertible Preferred Stock

As previously reported (see Note 6 – Note Payable), the CRG debt obligations converted into 31,300 shares of the newly authorized Series B convertible preferred stock and warrants to purchase up to 989,379 shares of common stock were also issued.

In connection with the CRG debt conversion, on November 26, 2019, the Company filed the Certificate of Designation of Preferences, Rights and Limitations of Series B Convertible Preferred Stock (the “Series B Certificate of Designation”) with the Secretary of State of the State of Delaware. The Series B Certificate of Designation provides for the issuance of the shares of Series B convertible preferred stock. The holders of Series B convertible preferred stock are entitled to receive compounding dividends at a rate of 12.5% per annum payable quarterly at the Company’s option through additional paid in-kind shares of Series B convertible preferred stock or in cash. During the three months ended June 30, 2021, the Company paid dividend in-kind of an additional 1,153 shares of Series B convertible preferred stock and a cash dividend of approximately \$1,000 for the remaining fractional shares. During the six months ended June 30, 2021, the Company paid dividend in-kind of an additional 2,271 shares of Series B convertible preferred stock and a cash dividend of approximately \$2,000 for the remaining fractional shares. The Company has issued a total of 6,790 shares of Series B convertible preferred stock and paid approximately \$13,000 in cash as preferred dividend to the holders of Series B convertible preferred stock through June 30, 2021.

As of June 30, 2021 and December 31, 2020, there were 38,090 and 35,819 shares of Series B convertible preferred stock outstanding and convertible into 2,489,542 and 2,341,111 shares of common stock, respectively. Each share of Series B convertible preferred stock is convertible at the holder’s option into shares of common stock at a conversion ratio of 1-for-65.36 per share determined by dividing the Series B liquidation amount of \$1,000 per share by the Series B conversion price of \$15.30 per share. However, under the terms of the Series B Preferred Stock and Warrant Purchase Agreement, as amended, CRG will not convert the Series B preferred stock or exercise the CRG warrants until the Company’s stockholders act to authorize additional number of shares of common stock sufficient to cover the conversion shares.

The shares of Series B convertible preferred stock have no voting rights and rank senior to all other classes and series of our equity in terms of repayment and certain other rights.

The Series B convertible preferred stock also provides that for so long as any shares are outstanding, the consent of the holders of the Series B convertible preferred stockholders would be required to amend the Company’s organizational documents, approve any merger, sale of assets, or other major corporate transaction, or incur additional indebtedness, among other items.

Series C Convertible Preferred Stock

In connection with the closing of the public offering, on January 19, 2021, the Company filed the Certificate of Designation of Preferences, Rights and Limitations of Series C Convertible Preferred Stock (the “Series C Certificate of Designation”) with the Secretary of State of the State of Delaware. The Series C Certificate of Designation provides for the issuance of the shares of Series C convertible preferred stock. The shares of Series C convertible preferred stock rank on par with the shares of the common stock, in each case, as to dividend rights and distributions of assets upon liquidation, dissolution or winding up of the Company.

With certain exceptions, as described in the Series C Certificate of Designation, the shares of Series C convertible preferred stock have no voting rights.

Each share of Series C convertible preferred stock is convertible at any time at the holder's option into one share of common stock, which conversion ratio will be subject to adjustment for stock splits, stock dividends, distributions, subdivisions and combinations and other similar transactions as specified in the Series C Certificate of Designation.

A total of 2,450,880 shares of Series C convertible preferred stock were issued in the January 2021 Offering. In January 2021, all Series C convertible preferred stock were converted into common stock and there are no remaining shares of Series C convertible preferred stock outstanding.

11. Common Stock

Purchase Agreement with Lincoln Park Capital, LLC

On June 8, 2020, the Company entered into the Purchase Agreement with LPC, which provided that the Company had the right, in its sole discretion, to sell to LPC, and LPC has committed to purchase from us, up to \$10,000,000 of our common stock, subject to certain limitations, from time to time over a 30-month period pursuant to the terms of the Purchase Agreement. The Purchase Agreement limited the Company's sale of shares of common stock to LPC to 301,762 shares of common stock (after giving effect to the Company's reverse stock split in December 2020), representing 19.99% of the shares of the common stock outstanding on the date of the Purchase Agreement unless (i) shareholder approval was obtained to issue more than such amount or (ii) the average price of all applicable sales of common stock to LPC under the Purchase Agreement equaled or exceeded \$6.46 per share (after giving effect to the Company's reverse stock split), which represented the lower of (a) the closing price of our common stock on the Nasdaq Capital Market immediately preceding the date of the Purchase Agreement or (b) the average of the closing price of the common stock on the Nasdaq Capital Market for the five business days immediately preceding the date of the Purchase Agreement, as calculated in accordance with Nasdaq Rules. On June 9, 2020, LPC purchased 52,500 shares of common stock at a price per share of \$6.50 (the "Initial Purchase Shares") under the Purchase Agreement for gross proceeds of approximately \$341,000.

On March 31, 2021, the Company and LPC entered into the first amendment to the Purchase Agreement. The amendment limited the Company's sale shares of common stock to LPC from the date thereof to 2,068,342 shares of shares of common stock, representing 19.99% of the shares of the common stock outstanding on the date of amendment unless (i) shareholder approval is obtained to issue more than such amount or (ii) the average price of all applicable sales of common stock to LPC under the Purchase Agreement, as amended equals or exceeds \$2.99 per share, which represents the lower of (a) the closing price of the common stock on the Nasdaq Capital Market immediately preceding the date of the Amendment or (b) the average of the closing prices of our common stock on the Nasdaq Capital Market for the five business days immediately preceding the date of the Amendment, as calculated in accordance with Nasdaq Rules. On May 4, 2021, pursuant to the provisions under the Purchase Agreement as amended, LPC purchased 250,000 shares of common stock at price per share of \$2.817 for gross proceeds of approximately \$704,000.

As of June 30, 2021, the equity facility with LPC has a remaining financing commitment of approximately \$9,000,000.

2021 Public Offering

On January 19, 2021, the Company closed an upsized underwritten public offering of units (the "January 2021 Offering") for gross proceeds of approximately \$27,600,000, which included the exercise of the underwriter's over-allotment option to purchase additional shares and warrants, prior to deducting underwriting discounts and commissions and offering expenses payable by Viveve.

The offering comprised of: (1) 4,607,940 Class A Units, priced at a public offering price of \$3.40 per Class A Unit, with each unit consisting of one share of common stock and one warrant to purchase one share of common stock, at an exercise price of \$3.40 per share that expires on the fifth anniversary of the date of issuance; and (2) 2,450,880 Class B Units, priced at a public offering price of \$3.40 per Class B Unit, with each unit consisting of one share of Series C convertible preferred stock and one warrant to purchase one share of common stock, at an exercise price of \$3.40 per share that expires on the fifth anniversary of the date of issuance. The underwriter exercised an over-allotment option to purchase an additional 1,058,820 shares of common stock and warrants to purchase 1,058,820 shares of common stock in the offering. The net proceeds to the Company, after deducting underwriting discounts and commissions and offering expenses payable by the Company, were approximately \$25,122,000.

A total of 2,450,880 shares of Series C convertible preferred stock were issued in the January 2021 Offering. In January 2021, all Series C convertible preferred stock were converted into common stock and there are no remaining shares of Series C convertible preferred stock outstanding.

Warrants to purchase a total of 8,117,640 shares of common stock were issued in the January 2021 Offering. In February and March 2021, holders exercised January 2021 warrants to purchase 12,760 shares of common stock for aggregate exercise proceeds to the Company of approximately \$43,000. As of June 30, 2021, there were January 2021 warrants to purchase a total of 8,104,880 shares of common stock still remaining and outstanding.

Restricted Common Shares

There were no restricted common shares issued during the six months ended June 30, 2021.

The activity of restricted common shares during the six months ended June 30, 2020 is described as follows:

- In June 2020, the Company issued 3,453 restricted shares of its common stock at an aggregate value of approximately \$5,000.
- In March 2020, the Company issued 2,832 restricted shares of its common stock at an aggregate value of approximately \$4,000.

Warrants for Common Stock

As of June 30, 2021, outstanding warrants to purchase shares of common stock were as follows:

Issuance Date	Exercisable for	Expiration Date	Exercise Price	Number of Shares Outstanding Under Warrants
February 2015	Common Shares	February 17, 2025	\$ 4,000.00	79
March 2015	Common Shares	March 26, 2025	\$ 2,720.00	2
May 2015	Common Shares	May 12, 2025	\$ 4,240.00	37
December 2015	Common Shares	December 16, 2025	\$ 5,600.00	31
April 2016	Common Shares	April 1, 2026	\$ 6,080.00	25
June 2016	Common Shares	June 20, 2026	\$ 4,980.00	101
May 2017	Common Shares	May 25, 2027	\$ 9,500.00	223
November 2019	Common Shares	November 26, 2024	\$ 18.36	989,379
November 2019	Common Shares	November 26, 2024	\$ 2.82	285,632
April 2020	Common Shares	April 21, 2025	\$ 2.82	413,210
January 2021	Common Shares	January 19, 2026	\$ 3.40	8,104,880
				<u>9,793,599</u>

In connection with the 2017 Loan Agreement, the Company issued warrants to purchase a total of 223 shares of common stock at an exercise price of \$9,500.00 per share. The warrants have a contractual life of ten years and are exercisable immediately in whole or in part. The fair value of the warrants, along with financing and legal fees, are recorded as debt issuance costs and presented in the condensed consolidated balance sheets as a deduction from the carrying amount of the note payable. The debt issuance costs are amortized to interest expense over the loan term. During the three and six months ended June 30, 2021, the Company recorded \$1,000 and \$2,000, respectively, of interest expense relating to the debt issuance costs using the effective interest method. During the three and six months ended June 30, 2020, the Company recorded \$1,000 and \$2,000, respectively, of interest expense relating to the debt issuance costs using the effective interest method. As of June 30, 2021, the unamortized debt discount was \$7,000.

In February 2020, a total of 102,626 shares of common stock were issued in connection with the exercise of Series A warrants for gross proceeds of approximately \$1,591,000, and a total of 4,548 shares of common stock were issued in connection with the exercise of Series B warrants for gross proceeds of approximately \$70,000.

In connection with the January 2021 Offering, warrants to purchase up to 8,117,640 shares of common stock were issued in the offering. The warrants to purchase one share of common stock have an exercise price of \$3.40 per share and expires on the fifth anniversary of the date of issuance.

On January 19, 2021, the Company closed a public offering at an effective price of \$3.40 per share of its common stock. As a result, the per share exercise price of our previously issued Series B, A-2 and B-2 common stock warrants was automatically reduced pursuant to the terms of the warrants. The exercise price for Series B warrants was reduced from \$6.10 per share to \$3.40 per share. The exercise price for Series A-2 and B-2 warrants was reduced from \$6.371 per share to \$3.40 per share. There was no change to the quantity of warrant shares. The Company determined the incremental fair value on Series B, A-2 and B-2 warrants due to the reduction of exercise price on the date of such modification to be approximately \$287,000 using the Black-Scholes option pricing model. Assumptions used were as follows:

Series B Warrants	Immediately before Modification	Immediately After Modification
Exercise price	\$6.10	\$3.40
Common stock price	\$3.19	\$3.19
Expected term (in years)	3.9	3.9
Average volatility	90%	90%
Risk-free interest rate	0.33%	0.33%
Dividend yield	0%	0%

Series A-2 and B-2 Warrants	Immediately before Modification	Immediately After Modification
Exercise price	\$6.37	\$3.40
Common stock price	\$3.19	\$3.19
Expected term (in years)	4.3	4.3
Average volatility	90%	90%
Risk-free interest rate	0.33%	0.33%
Dividend yield	0%	0%

On May 4, 2021, pursuant to the provisions under the Purchase Agreement as amended, LPC purchased 250,000 shares at \$2.817 per share of the Company's common stock. As a result, the per share exercise price of our previously issued Series B, A-2 and B-2 common stock warrants was automatically reduced from \$3.40 to \$2.817 pursuant to the terms of the warrants. There was no change to the quantity of warrant shares. The Company determined the incremental fair value on Series B, A-2 and B-2 warrants due to the reduction of exercise price on the date of such modification to be approximately \$6,000 using the Black-Scholes option pricing model. Assumptions used were as follows:

Series B, A-2 and B-2 Warrants	Immediately before Modification	Immediately After Modification
Exercise price	\$3.40	\$2.82
Common stock price	\$3.01	\$3.01
Expected term (in years)	3.6	3.6
Average volatility	80%	80%
Risk-free interest rate	0.58%	0.58%
Dividend yield	0%	0%

The incremental fair value of the Series B, A-2 and B-2 warrants is recorded as other expense and as additional paid-in capital.

In February 2021, a total of 40,000 shares of common stock were issued in connection with the exercise of Series B warrants for gross proceeds of approximately \$136,000 and a total of 8,760 shares of common stock were issued in connection with the exercise of January 2021 warrants for gross proceeds of approximately \$30,000.

In March 2021, a total of 4,000 shares of common stock were issued in connection with the exercise of January 2021 warrants for gross proceeds of approximately \$13,000.

As of June 30, 2021, there were no Series A warrants remaining to purchase shares of common stock and Series B warrants to purchase a total of 285,632 shares of common stock still remaining and outstanding.

As of June 30, 2021, there were Series A-2 warrants to purchase a total of 392,830 shares of common stock and Series B-2 warrants to purchase a total of 20,380 shares of common stock still remaining and outstanding.

As of June 30, 2021, there were January 2021 warrants to purchase a total of 8,104,880 shares of common stock still remaining and outstanding.

No shares issuable pursuant to warrants have been cancelled during the three and six months ended June 30, 2021 and 2020.

A total of 6 shares issuable pursuant to warrants expired during the three and six months ended June 30, 2021. A total of 22 shares issuable pursuant to warrants expired during the three and six months ended June 30, 2020.

12. Summary of Stock Options

Stock Option Plans

The Company has issued equity awards in the form of stock options (both incentive stock options and non-qualified stock options) and deferred restricted stock awards or units, from two employee benefit plans. The plans include the Viveve Amended and Restated 2006 Stock Plan (the “2006 Plan”) and the Company’s Amended and Restated 2013 Stock Option and Incentive Plan (the “2013 Plan”).

As of June 30, 2021, there were outstanding stock option awards issued from the 2006 Plan covering a total of 12 shares of the Company’s common stock and no shares are available for future awards. The weighted average exercise price of the outstanding stock options is \$9,920.00 per share and the weighted average remaining contractual term is 1.6 years.

In January 2021, the total common stock reserved for issuance under the 2013 Plan was increased by 307,705 shares from 1,451,246 shares to a total of 1,758,951 shares under the evergreen provision of the 2013 Plan.

In June 2021, the Company’s stockholders approved an amendment to the 2013 Plan to increase the number of shares of common stock reserved for issuance thereunder from 1,758,951 to a total of 3,940,136 shares.

As of June 30, 2021, there were outstanding stock option awards issued from the 2013 Plan covering a total of 3,188,616 shares of the Company’s common stock and there remain reserved for future awards 68,863 shares of the Company’s common stock. The weighted average exercise price of the outstanding stock options is \$7.51 per share and the remaining contractual term is 9.5 years.

Activity under the 2006 Plan and the 2013 Plan is as follows:

	Six Months Ended June 30, 2021			
	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Options outstanding, beginning of period	986,399	\$ 19.10	8.9	\$ 675
Options granted	2,220,600	\$ 2.73		
Options exercised	-			
Options canceled	(18,371)	\$ 46.78		
Options outstanding, end of period	<u>3,188,628</u>	\$ 7.54	9.5	\$ 502,298
Vested and exercisable and expected to vest, end of period	2,888,549	\$ 7.95	9.5	\$ 444,100
Vested and exercisable, end of period	348,326	\$ 34.42	8.3	\$ -

The aggregate intrinsic value reflects the difference between the exercise price of the underlying stock options and the Company’s closing share price as of June 30, 2021.

The options outstanding and exercisable as of June 30, 2021 were as follows:

Range of Exercise Prices	Number Outstanding as of June 30, 2021	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Number Exercisable as of June 30, 2021	Weighted Average Exercise Price
\$2.73 - \$3.40	2,220,600	\$ 2.73	10.0	-	\$ -
\$4.45 - \$6.90	105,300	\$ 5.30	9.3	2,501	\$ 6.22
\$8.60 - \$8.91	843,788	\$ 8.69	8.4	334,782	\$ 8.69
\$10.90 - \$13.60	15,500	\$ 12.64	8.7	8,084	\$ 12.99
\$380.00 - \$580.00	125	\$ 552.00	7.9	116	\$ 563.62
\$1,000.00 - \$1,970.00	1,882	\$ 1,433.60	7.4	1,509	\$ 1,433.29
\$2,020.00 - \$2,830.00	66	\$ 2,559.55	6.4	55	\$ 2,567.27
\$3,110.00 - \$3,580.00	189	\$ 3,439.26	7.1	159	\$ 3,449.62
\$4,360.00 - \$4,970.00	595	\$ 4,552.59	5.9	541	\$ 4,555.21
\$5,010.00 - \$5,670.00	294	\$ 5,373.27	5.8	290	\$ 5,370.52
\$6,000.00 - \$6,000.00	138	\$ 6,000.00	4.5	138	\$ 6,000.00
\$7,140.00 - \$7,920.00	139	\$ 7,722.73	5.4	139	\$ 7,722.73
\$9,920.00 - \$9,920.00	12	\$ 9,920.00	1.6	12	\$ 9,920.00
Total:	<u>3,188,628</u>	\$ 7.54	9.5	<u>348,326</u>	\$ 34.42

Deferred Restricted Stock Units

As of June 30, 2021, there are 684,000 shares of unvested restricted stock outstanding that have been granted by the Company pursuant to deferred restricted stock units ("RSUs") under the 2013 Plan.

In January 2021, the Company granted annual equity awards to employees and board members for 690,000 shares of common stock issuable upon vesting of RSUs under the 2013 Plan. The RSUs vest in full on thesecond anniversary of the grant date.

During the three and six months ended June 30, 2021, RSUs for 3,000 and 6,000 shares of common stock under the2013 Plan were cancelled, respectively.

During the three and six months ended June 30, 2020, no RSUs for shares of common stock under the2013 Plan were granted by the Company.

Deferred Restricted Stock Awards

As of June 30, 2021, there are 232 shares of unvested restricted stock outstanding that have been granted by the Company pursuant to deferred restricted stock awards ("RSAs") under the 2013 Plan.

During the three and six months ended June 30, 2021 and 2020, no RSAs for shares of common stock under the2013 Plan were granted by the Company.

During the three months ended June 30, 2021, no RSAs for shares of common stock under the2013 Plan were cancelled. During the six months ended June 30, 2021, RSAs for 2 shares of common stock under the2013 Plan were cancelled.

During the three and six months ended June 30, 2020, RSAs for 3 shares of common stock under the2013 Plan were cancelled.

2017 Employee Stock Purchase Plan

In September 2020, the board of directors approved the suspension of the Company's 2017 Employee Stock Purchase Plan (the "2017 ESPP") following the twelfth offering period and the ESPP purchase on September 30, 2020.

In June 2021, the Company's stockholders approved an amendment to the 2017 ESPP to increase the number of shares of common stock reserved for issuance thereunder from 400 to 500,378 shares and to increase the number of shares available in an offering period from 2,000 (subject to adjustment in the event of certain changes to the Company's capital structure and other similar events).

Following the Company's annual stockholders' meeting, the board of directors approved to reactivate the ESPP effective with the offering period beginning on July 1, 2021.

As of June 30, 2021, the remaining shares available for issuance under the 2017 ESPP were 500,000 shares.

Stock-Based Compensation

During the three months ended June 30, 2021, the Company granted stock options to employees and nonemployees to purchase 2,213,600 shares of common stock with a weighted average grant date fair value of \$1.87 per share. There were no stock options granted during the three months ended June 30, 2020. During the six months ended June 30, 2021, the Company granted stock options to employees and nonemployees to purchase 2,200,600 shares of common stock with a weighted average grant date fair value of \$1.87 per share. During the six months ended June 30, 2020, the Company granted stock options to employees and nonemployees to purchase 46,800 shares of common stock with a weighted average grant date fair value of \$5.23 per share.

The Company estimated the fair value of stock options using the Black-Scholes option pricing model. The fair value of stock options is being amortized on a straight-line basis over the requisite service period of the awards. The fair value of stock options granted was estimated using the following weighted average assumptions:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Expected term (in years)	6	N/A	6	5
Average volatility	83%	N/A	83%	73%
Risk-free interest rate	0.98%	N/A	0.98%	0.45%
Dividend yield	0%	N/A	0%	0%

Option-pricing models require the input of various subjective assumptions, including the option's expected life and the price volatility of the underlying stock. The expected stock price volatility is based on analysis of the Company's stock price history over a period commensurate with the expected term of the options, trading volume of comparable companies' stock, look-back volatilities and the Company specific events that affected volatility in a prior period. The expected term of stock options represents the weighted average period the stock options are expected to remain outstanding and is based on the history of exercises and cancellations on all past option grants made by the Company, the contractual term, the vesting period and the expected remaining term of the outstanding options. The risk-free interest rate is based on the U.S. Treasury interest rates whose term is consistent with the expected life of the stock options. No dividend yield is included as the Company has not issued any dividends and does not anticipate issuing any dividends in the future.

The following table shows stock-based compensation expense included in the condensed consolidated statements of operations for the three and six months ended June 30, 2021 and 2020 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Cost of revenue	\$ 60	\$ 61	\$ 115	\$ 121
Research and development	102	85	200	171
Selling, general and administrative	705	511	1,362	1,075
Total	\$ 867	\$ 657	\$ 1,677	\$ 1,367

As of June 30, 2021, the total unrecognized compensation cost in connection with unvested stock options was approximately \$7,712,000. These costs are expected to be recognized over a period of approximately 3.1 years.

As of June 30, 2021, the total unrecognized compensation cost in connection with invested RSUs was approximately \$1,724,000. These costs are expected to be recognized over a period of approximately 1.5 years.

13. Income Taxes

No provision for income taxes has been recorded due to the net operating losses incurred from inception to date, for which no benefit has been recorded.

For interim periods, the Company estimates its annual effective income tax rate and applies the estimated rate to the year-to-date income or loss before income taxes. The Company also computes the tax provision or benefit related to items reported separately and recognizes the items net of their related tax effect in the interim periods in which they occur. The Company also recognizes the effect of changes in enacted tax laws or rates in the interim periods in which the changes occur.

The Company's effective tax rate is 0% for the three months ended June 30, 2021 and 2020. The Company expects that its effective tax rate for the full year 2021 will be 0%.

The Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") was enacted on March 27, 2020 in the United States. The CARES Act includes several significant provisions for corporations, including the usage of net operating losses and payroll benefits. The Company is evaluating the impact, if any, the CARES Act and other economic stimulus measures will have on the Company's financials and disclosures.

14. Related Party Transactions

In June 2006, the Company entered into a Development and Manufacturing Agreement (the "Agreement") with Stellartech Research Corporation ("Stellartech"). The Agreement was amended on October 4, 2007. Under the Agreement, the Company agreed to purchase 300 generators manufactured by Stellartech. As of June 30, 2021, the Company has purchased 855 units. The price per unit is variable and dependent on the volume and timing of units ordered. In conjunction with the Agreement, Stellartech purchased 38 shares of Viveve, Inc.'s common stock. Under the Agreement, the Company paid Stellartech \$77,000 and \$467,000 for goods and services during the three months ended June 30, 2021 and 2020, respectively, and approximately \$154,000 and \$749,000 for the six months ended June 30, 2021 and 2020 respectively. The amounts due to Stellartech for accounts payable as of June 30, 2021 and December 31, 2020 were approximately \$35,000 and \$9,000, respectively.

In August 2017, the Company entered into a Distributorship Agreement with ICM. Under the terms of the Distributorship Agreement, the Company had a minimum purchase requirement to purchase a certain quantity of ICM products per month during the term of this agreement. In February 2019, the Company executed a mutual termination of the Distributorship Agreement with ICM. As a result, the Company no longer has a minimum purchase requirement to purchase a certain quantity of ICM products per month. (See Note 5 – Investment in Limited Liability Company for transactions with ICM.)

15. Subsequent Events

Effective Shelf Registration Statement

On July 2, 2021, we filed a universal shelf registration statement with the SEC on Form S-3 for the proposed offering from time to time of up to \$75,000,000 of our securities, including common stock, preferred stock, and/or warrants. This registration statement currently has a capacity of \$75,000,000. However, as a result of the limitations of General Instruction I.B.6. of Form S-3, or the so-called "baby shelf rules", the amount of shares of our common stock available for sale under a registration statement on Form S-3 is limited to one-third of the aggregate market value of our common equity held by non-affiliates of the Company over any rolling 12-month period. As of June 30, 2021, we have not issued any shares or received any proceeds pursuant to the universal shelf registration statement.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

You should read the following discussion of our financial condition and results of operations in conjunction with the condensed consolidated financial statements and the related notes included elsewhere in this Quarterly Report and with our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2020, as filed with the Securities and Exchange Commission on March 18, 2021. In addition to historical condensed consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to these differences include those discussed below and elsewhere in this Quarterly Report, particularly in Part II, Item 1A. “Risk Factors.”

Overview of Our Business

In the discussion below, when we use the terms “we”, “us” and “our”, we are referring to Viveve Medical, Inc. and our wholly-owned subsidiaries, Viveve, Inc. and Viveve BV.

We design, develop, manufacture and market a platform medical technology, which we refer to as *Cryogen-cooled Monopolar Radiofrequency* or CMRF. Our proprietary CMRF technology is delivered through a radiofrequency generator, handpiece and treatment tip that, collectively, we refer to as the Viveve® System. The Viveve System is currently marketed and sold for a number of indications, depending on the relevant country-specific clearance or approval. Currently, the Viveve System is cleared for marketing in 50 countries throughout the world under the following indications for use:

Indication for Use:	No. of Countries:
General surgical procedures for electrocoagulation and hemostasis	4 (including the U.S.)
General surgical procedures for electrocoagulation and hemostasis of vaginal tissue and the treatment of vaginal laxity	29
For treatment of vaginal laxity	5
For treatment of the vaginal introitus, after vaginal childbirth, to improve sexual function	9
General surgical procedures for electrocoagulation and hemostasis as well as for the treatment of vaginal laxity	1
For vaginal rejuvenation	1
For treatment of vaginal laxity and to improve mild urinary incontinence and sexual function	1

In the U.S., the Viveve System is indicated for use in general surgical procedures for electrocoagulation and hemostasis and we market and sell primarily through a direct sales force. Outside the U.S., we primarily market and sell through distribution partners. As of June 30, 2021, we have a global installed base of 859 Viveve Systems and we have sold approximately 56,000 single-use treatment tips worldwide.

Because the revenues we have earned to date have not been sufficient to support our operations, we have relied on sales of our securities, bank term loans and loans from related parties to fund our operations.

We are subject to risks, expenses and uncertainties frequently encountered by companies in the medical device industry. These risks include, but are not limited to, intense competition, whether we can be successful in obtaining the U.S. Food and Drug Administration (“FDA”) and other governmental clearance or approval for the sale of our product for all desired indications and whether there will be a demand for the Viveve System, given that the cost of the procedure will likely not be reimbursed by the government or private health insurers. In addition, we will continue to require substantial funds to support our clinical trials and fund our efforts to expand regulatory clearance or approval for our products, including in the U.S. We cannot be certain that any additional required financing will be available when needed or on terms which are favorable to us. As noted above, our operations to date have been primarily funded through the sales of our securities, bank term loans and loans from related parties. Various factors, including our limited operating history with limited revenues to date and our limited ability to market and sell our products have resulted in limited working capital available to fund our operations. There are no assurances that we will be successful in securing additional financing in the future to fund our operations going forward. Failure to generate sufficient cash flows from operations, raise additional capital or reduce certain discretionary spending could have a material adverse effect on our ability to achieve our intended business objectives.

On December 1, 2020, the Company effected a 1-for-10 reverse stock split of all outstanding common stock of the Company. All share numbers, exercise prices for options and warrants, conversion price of preferred stock and other capitalization information in this Quarterly Report on Form 10-Q is represented on a post-split basis, unless as otherwise indicated.

Recent Events

Effective Shelf Registration Statement

On July 2, 2021, we filed a universal shelf registration statement with the SEC on Form S-3 for the proposed offering from time to time of up to \$75,000,000 of our securities, including common stock, preferred stock, and/or warrants. This registration statement currently has a capacity of \$75,000,000. However, as a result of the limitations of General Instruction I.B.6. of Form S-3, or the so-called “baby shelf rules”, the amount of shares of our common stock available for sale under a registration statement on Form S-3 is limited to one-third of the aggregate market value of our common equity held by non-affiliates of the Company over any rolling 12-month period. As of June 30, 2021, we have not issued any shares or received any proceeds pursuant to the universal shelf registration statement.

2021 Public Offering

On January 19, 2021, the Company closed an upsized underwritten public offering of units (the “January 2021 Offering”) for gross proceeds of approximately \$27,600,000, which included the exercise of the underwriter’s over-allotment option to purchase additional shares and warrants, prior to deducting underwriting discounts and commissions and offering expenses payable by Viveve.

In connection with the closing of the public offering, on January 19, 2021, the Company filed a Certificate of Designation of Preferences, Rights and Limitations of Series C Convertible Preferred Stock (the “Series C Certificate of Designation”) with the Secretary of State of the State of Delaware. The Series C Certificate of Designation provides for the issuance of shares of Series C convertible preferred stock. The shares of Series C convertible preferred stock rank on par with the shares of the common stock. With certain exceptions, as described in the Series C Certificate of Designation, the shares of Series C convertible preferred stock have no voting rights. Each share of Series C convertible preferred stock is convertible at any time at the holder’s option into one share of common stock.

The offering comprised of: (1) 4,607,940 Class A Units, priced at a public offering price of \$3.40 per Class A Unit, with each unit consisting of one share of common stock and one warrant to purchase one share of common stock, at an exercise price of \$3.40 per share that expires on the fifth anniversary of the date of issuance; and (2) 2,450,880 Class B Units, priced at a public offering price of \$3.40 per Class B Unit, with each unit consisting of one share of Series C convertible preferred stock and one warrant to purchase one share of common stock, at an exercise price of \$3.40 per share that expires on the fifth anniversary of the date of issuance. The underwriter exercised an over-allotment option to purchase an additional 1,058,820 shares of common stock and warrants to purchase 1,058,820 shares of common stock in the offering. The net proceeds to the Company, after deducting underwriting discounts and commissions and offering expenses payable by the Company, were approximately \$25,122,000.

A total of 2,450,880 shares of Series C convertible preferred stock were issued in the January 2021 Offering. In January 2021, all Series C convertible preferred stock were converted into common stock and there are no remaining shares of Series C convertible preferred stock outstanding.

Purchase Agreement with Lincoln Park Capital, LLC

The Company previously entered into a purchase agreement on June 8, 2020 (the “Purchase Agreement”) with Lincoln Park Capital Fund, LLC (“LPC”), which provided that the Company had the right, in its sole discretion, to sell to LPC, and LPC has committed to purchase from us, up to \$10,000,000 of our common stock, subject to certain limitations, from time to time over a 30-month period pursuant to the terms of the Purchase Agreement. The Purchase Agreement limited the Company’s sale of shares of common stock to LPC to 301,762 shares of common stock (after giving effect to the Company’s reverse stock split in December 2020), representing 19.99% of the shares of the common stock outstanding on the date of the Purchase Agreement unless (i) shareholder approval was obtained to issue more than such amount or (ii) the average price of all applicable sales of common stock to LPC under the Purchase Agreement equaled or exceeded \$6.46 per share (after giving effect to the Company’s reverse stock split).

On March 31, 2021, the Company and LPC entered into a first amendment to Purchase Agreement. The amendment limited the Company’s sale of shares of common stock to LPC from the date thereof to 2,068,342 shares of shares of common stock, representing 19.99% of the shares of the common stock outstanding on the date of amendment unless (i) shareholder approval is obtained to issue more than such amount or (ii) the average price of all applicable sales of Common Stock to Lincoln Park under the Purchase Agreement, as amended equals or exceeds \$2.99 per share.

On May 4, 2021, pursuant to the provisions under the Purchase Agreement as amended, LPC purchased 250,000 shares of the Company’s common stock at \$2.817 per share for gross proceeds of approximately \$704,000.

Purchase Agreement with LPC – Reduction of Warrant Exercise Price

On May 4, 2021, LPC purchased 250,000 shares at \$2.817 per share of the Company's common stock. As a result, the per share exercise price of our previously issued Series B, A-2 and B-2 common stock warrants was automatically reduced from \$3.40 to \$2.817 pursuant to the terms of the warrants. There was no change to the quantity of warrant shares. As a result of this reduction of warrant exercise price, the Company recognized a modification charge of \$86,000.

Paycheck Protection Program Loan

The Paycheck Protection Program ("PPP") was established under the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") and is administered by the U.S. Small Business Administration. On April 24, 2020, Viveve, Inc. ("Viveve"), a wholly-owned subsidiary of the Company, entered into a promissory note evidencing an unsecured loan in the aggregate amount of approximately \$1,343,000 made to Viveve under the PPP (the "PPP Loan"). The PPP Loan to Viveve is being made through Western Alliance Bank. The interest rate on the PPP Loan is 1.00% and the term is two years. Beginning seven months from the date of the PPP Loan, Viveve is required to make monthly payments of principal and interest. The promissory note evidencing the PPP Loan contains customary events of default relating to, among other things, payment defaults or breaching the terms of the PPP Loan documents. The occurrence of an event of default may result in the repayment of all amounts outstanding, collection of all amounts owing from Viveve, or filing suit and obtaining judgment against Viveve. Under the terms of the CARES Act, PPP Loan recipients can apply for and be granted forgiveness for all or a portion of the loan granted under the PPP. Such forgiveness will be determined, subject to limitations, based on the use of loan proceeds for payment of payroll costs and any payments of mortgage interest, rent, and utilities.

In October 2020, the Company was notified that the terms of its PPP Loan with Western Alliance Bank have been modified. The amount of time that the Company has to spend the proceeds of the PPP Loan (the "covered period") has been extended from 8 weeks to 24 weeks. The date to begin repaying unforgiven portions of the PPP Loan has also been extended from six months after the funding date to up to 10 months after the end of the covered period (approximately 16 months) depending on when the Company applies for forgiveness. The SBA will also cover interest on the forgiveness portion of the loan during this period. There has been no change to the maturity date of the loan. All PPP Loans must be repaid or forgiven within two years after the funding date. We submitted our PPP Loan forgiveness application to the SBA in October 2020.

On April 30, 2021, the Company received notification that the SBA requested a review of the loan application, forgiveness application, and supporting material for the PPP Loan.

On May 25, 2021, the Company was notified by WAB that its request for forgiveness of the PPP Loan had been approved in full. The total principal amount and the accrued interest through the forgiveness payment date of May 21, 2021 was forgiven. The Company has recognized a gain on the extinguishment of debt in the amount of \$1,358,000.

510(k) Clearance from the U.S. Food and Drug Administration

On November 18, 2020, we received clearance from the U.S. Food and Drug Administration, or FDA, under Section 510(k), to expand manufacturing capacity for consumable treatment tips used with our CMRF technology. The expansion of our manufacturing capabilities offers a significant reduction in tip manufacturing costs, strengthens our supply chain, reduces manufacturing risk, and positions us to support increases in treatment tip demand and utilization.

PURSUIT – U.S. Pivotal SUI Trial

The Company received FDA approval of its investigational device exemption (IDE) application to conduct its U.S. pivotal, multicenter PURSUIT trial for improvement of Stress Urinary Incontinence (SUI) in women in July 2020, as well as FDA approval of requested amendments to the IDE protocol in December 2020. Initiation of the PURSUIT trial was announced by the Company on January 21, 2021 and subject enrollment is underway with an expected completion in the fourth quarter of 2021.

PURSUIT is a randomized, double-blinded, sham-controlled trial with an intended enrollment of approximately 390 subjects with moderate SUI (≥ 10 ml – 50ml urine leakage on the 1-hour Pad Weight Test) at up to 30 study sites in the U.S. Randomized in a 2:1 ratio for active and sham treatments, subjects in the active treatment arm (260 subjects) will receive CMRF treatment (90J/cm² RF and cryogen-cooling), while subjects in the control arm (130 subjects) will receive an inert sham treatment.

The primary efficacy endpoint of the PURSUIT trial is a comparison of the proportion of patients who experience greater than 50% reduction in urine leakage compared to baseline on the standardized 1-hour Pad Weight Test at 12 months post-treatment versus the new sham procedure. The study also includes several secondary endpoints, including: proportion of patients who experience greater than 50% reduction in urine leakage on the standardized 1-hour Pad Weight Test at three and six months post-treatment, percentage change from baseline in the 1-hour Pad Weight Test at three, six and 12 months, percent of subjects with no incontinence episodes at three, six and 12 months post treatment as assessed with the three-day bladder voiding diary, and change from baseline in the MESA Questionnaire (Medical, Epidemiologic and Social Aspects of Aging), Incontinence Quality of Life (I-QOL), Patient Global Impression of Improvement (PGI-1) Questionnaire, and International Consultation on Incontinence Modular Questionnaire-Urinary Incontinence Short Form (ICIQ-UI-SF). Subject safety will be monitored throughout the study.

Three-Arm SUI Feasibility Study

In December 2019, the Company received approval of an Investigational Testing Application (ITA) from the Canadian Ministry of Health and in January 2020 initiated a three-arm, three-month feasibility study to compare Viveve's CMRF treatment and a cryogen-only sham to an inert sham treatment for the improvement of SUI in women. Completion of subject enrollment in the study was reported in March 2020. Study subjects were randomized in a 1:1:1 ratio to the three arms and were assessed using the 1-hour Pad Weight Test, 3-day Voiding Diary, the 24-hour Pad Weight Test and I-QOL at five months post treatment. Due to patient, provider and medical facility health and safety concerns caused by the COVID-19 pandemic, the final subject follow-up visit was changed to 5 months versus 3 months.

Final results were reported in August 2020, indicating the primary efficacy endpoint (i.e., change from baseline in the standardized 1-hour Pad Weight Test at five months post treatment) was positively achieved. The median change from baseline in the active CMRF treatment group (N=13) and the cryogen-only sham treatment group (N=12) was -9.5 grams and -6.8 grams respectively, as compared to -4.4 grams in the inert sham treatment group (N=11). The study also assessed several secondary endpoints but showed no differentiation between groups. No device-related safety issues were reported. The meaningful separation demonstrated between the CMRF treatment arm and the inert sham arm in the feasibility study is believed to help provide confidence in the potential to achieve positive separation between the two treatment arms in the underway U.S. pivotal PURSUIT trial.

In-vivo Preclinical Study and Results for New Sham Treatment Tip

In response to the inconclusive results in which the treated arm showed no separation versus the sham control arm reported in July 2019 from the Company's LIBERATE-International SUI trial conducted in Canada (aimed at supporting SUI indications in Canada, the European Union and several other international countries), Viveve conducted an in-vivo preclinical temperature and immunohistochemistry study to evaluate a new inert sham treatment tip. The Good Laboratory Practices study was initiated in June of this year following several months of engineering, validation, and development work. The study assessed both in-vivo tissue temperature changes during treatment, and histopathology at 30 days post-treatment compared to baseline, in three parous ewes using Viveve's CMRF treatment tip (Active), cryogen-cooling only tip ("Old" sham treatment used in previous LIBERATE-International SUI study), and a new inert sham treatment tip. Histopathology of vaginal biopsies were performed and included use of α -smooth muscle actin, or α -SMA, staining for fibroblast activation and formation. All tissue samples were evaluated by an independent and blinded pathologist.

The positive preclinical findings demonstrated, as reported in August 2020, that both temperature and immunohistochemistry results support the validity of the new inert sham tip to provide a true inert or placebo treatment. Only minor tissue temperature change (less than 2 degrees centigrade) was generated by the new inert sham tip and no fibroblast activation was shown through elevated α -SMA staining. In contrast, both the Active and cryogen-cooling sham tips demonstrated meaningful tissue temperature changes during treatment and increased fibroblast activation 30 days post-treatment. We believe that the positive in-vivo preclinical study validates our new inert sham tip for use in the pivotal U.S. PURSUIT trial.

Issuance of Patents

Canada

On August 3, 2021, the Company announced that the Canadian Intellectual Property Office (CIPO) recently issued Canadian Patent No. 3028905 for Viveve's dual-energy technology device and method. The awarded patent represents the continued expansion and strengthening of the Company's intellectual property portfolio.

Taiwan and South Korea

The Company announced in April 2021 that the Taiwan Intellectual Property Office (TIPO) had issued Taiwan Patent No. 1720358 for Viveve's dual-energy technology device and in February 2021 that the Korean Intellectual Property Office (KIPO) had issued Korean Patent No. 10-2197234 titled, Vaginal Remodeling Device and Method. The awarded patents further expands and strengthens Viveve's intellectual property portfolio in two of Asia's largest commercial markets.

United States

In September 2020, the Company announced that the United States Patent and Trademark Office (USPTO) had issued U.S. Patent No. 10,779,874 covering Viveve's unique method of treatment to address SUI in women. The granted patent is the first SUI specific patent for Viveve and strengthens the Company's already robust intellectual property portfolio as it advances the pivotal U.S. PURSUIT clinical trial for SUI in women.

New Category III CPT Code for SUI Procedure

In early July 2021, the Company announced that the American Medical Association (AMA) had issued a new Category III Current Procedural Terminology (CPT®) code for the Company's dual-energy procedure effective January 1, 2022. The new code establishes a long-term pathway for potential reimbursement for Viveve's noninvasive treatment under evaluation in the PURSUIT trial to improve SUI in women if approved by the U.S. Food and Drug Administration for this indication. The new Category III CPT code for Viveve's SUI procedure is defined as: endovaginal cryogen-cooled, monopolar radiofrequency remodeling of the tissue surrounding the female bladder neck and proximal urethra for urinary incontinence.

U.S. Commercial Sales Transition to Recurring Revenue Rental Model

In June 2019, U.S. sales of the Viveve System transitioned from a capital equipment sales model to a recurring revenue rental model. The new U.S. commercial sales model is intended to lower up-front costs for customers and thus lower hurdles to adoption, increase placement rates, and improve profitability by significantly reducing selling time per unit. The new commercial sales model successfully increased physician adoption rates in the months following its implementation and continued to gain traction in the U.S. market well into the first quarter of 2020. In December 2019, Viveve Systems placed with new customers represented higher monthly productivity rates and lower costs per system placed per sales representative. Sale of Viveve products outside of the U.S. continue to be supported by the Company's current distributors without significant change to the international business model.

Late in the first quarter of 2020, the negative impact of the COVID-19 pandemic on medical facilities and practitioners was in full effect in the United States. Federal, regional, and local government and public health agencies issued directives halting performance of non-essential medical treatments and elective procedures in an effort to combat the spread of the coronavirus and protect public health and safety. As a result, a large percentage of Viveve's U.S. customers either temporarily closed their medical practices or dramatically reduced services and staff. The consequence has been both a public health and economic crisis that is continuing for existing and prospective Viveve customers. In a supportive partnership response, Viveve contacted all of its subscription customers and provided them with a three-month deferral of the rental payment. Although clinics in various regions have re-opened and provide limited services, we anticipate that until the COVID-19 pandemic abates, more practices re-open and elective patient's safety concerns are reduced that we will continue to experience reduced revenue from existing subscription customers, as well as a greatly reduced number of new and prospective customers.

Under the recurring revenue rental model, customers may lease the Viveve System for a set initial term. After the initial term, the customer may purchase the Viveve System, continue to pay a monthly rental amount or terminate the contract.

The rental program is accounted for under the Financial Standards Board's ("FASB") Accounting Standards Codification ("ASC") No. 2016-02, Leases (Topic 842) and meets the classification criteria for an operating lease. Revenue from the rental program is included in total revenue. For the three and six months ended June 30, 2021, rental revenue recognized during the period was \$323,000 and \$689,000, respectively. For the three and six months ended June 30, 2020, rental revenue recognized during the period was \$6,000 and \$427,000, respectively. The Viveve Systems that are being leased are included in property and equipment, net and depreciated over their expected useful lives of five years. When other products ("non-lease components"), such as single-use treatment tips or ancillary consumables, are included in the offering, the Company follows the relevant guidance in ASC Topic 606, *Revenue from Contracts with Customers*, to determine how to allocate contractual consideration between the lease and non-lease components.

Impact of the Coronavirus

As of the filing of this Quarterly Report on Form 10-Q, the United States and many other countries continue to face outbreaks or resurgences of the highly transmissible pathogenic coronavirus and its variants, which has resulted in an increasingly widespread global health crisis, adversely affected general commercial activity and the economies and financial markets of many countries, and is likely to continue to adversely affect our business, financial condition and results of operations. The extent to which the coronavirus impacts us will depend on future developments, which are highly uncertain and cannot be accurately predicted, including new information which may emerge concerning the severity of the coronavirus and the actions to contain the coronavirus or treat its impact, among others.

Plan of Operation

We intend to increase our sales both internationally and in the U.S. market by seeking additional regulatory clearances or approvals for the sale and distribution of our products, identifying and training qualified distributors, and expanding the scope of physicians who offer the Viveve System to include plastic surgeons, general surgeons, urologists and urogynecologists.

In June 2019, we transitioned from a capital equipment sales model to a recurring revenue rental model in the U.S. market. The new U.S. commercial sales model is intended to lower up-front costs for customers and thus lower hurdles to adoption, increase placement rates, and improve profitability by significantly reducing selling time per unit. Sale of Viveve products outside of the U.S. will continue to be supported by our international distributors.

In addition, we intend to use the strategic relationships that we have developed with outside contractors and medical experts to improve our products by focusing our research and development efforts on various areas including, but not limited to:

- designing new treatment tips optimized for both ease-of-use and to reduce procedure times for patients and physicians; and
- developing new RF consoles.

The net proceeds received from sales of our securities and the term loans have been used to support commercialization of our product in existing and new markets, for our research and development efforts and for protection of our intellectual property, as well as for working capital and other general corporate purposes. We expect that our cash as well as the remaining equity financing commitment from LPC of approximately \$9,000,000 will be sufficient to fund our activities for at least the next 12 months; however, we may require additional capital from the sale of equity or debt securities to fully implement our plan of operation. Our operating costs include employee salaries and benefits, compensation paid to consultants, professional fees and expenses, costs associated with our clinical trials, capital costs for research and other equipment, costs associated with research and development activities including travel and administration, legal expenses, sales and marketing costs, general and administrative expenses, and other costs associated with an early stage public company subject to the reporting requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). We also expect to incur expenses related to obtaining regulatory clearance and approvals in the U.S. and internationally as well as legal and related expenses to protect our intellectual property. We expect capital expenditures, for the foreseeable future, to be less than \$1,000,000 annually.

We intend to continue to meet our operating cash flow requirements through the sales of our products and by raising additional capital from the sale of equity or debt securities. If we sell our equity securities, or securities convertible into equity, to raise capital, our current stockholders will likely be substantially diluted. We may also consider the sale of certain assets, or entering into a strategic transaction, such as a merger, with a business complimentary to ours although we do not currently have plans for any such transaction. While we have been successful in raising capital to fund our operations since inception, other than as discussed in this Quarterly Report on Form 10-Q, we do not have any committed sources of financing and there are no assurances that we will be able to secure additional funding, or if we do secure additional financing that it will be on terms that are favorable to us. If we cannot obtain financing, then we may be forced to curtail our operations or consider other strategic alternatives.

Results of Operations

Comparison of the Three Months Ended June 30, 2021 and 2020

Revenue

	Three Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Revenue	\$ 1,654	\$ 704	\$ 950	135%

We recorded revenue of \$1,654,000 for the three months ended June 30, 2021, compared to revenue of \$704,000 for the three months ended June 30, 2020, an increase of \$950,000, or approximately 135%. The increase in revenue was primarily due to higher sales volume of Viveve Systems and treatment tips sold during the period. Sales in the second quarter of 2021 included seven Viveve Systems sold and approximately 3,500 disposable treatment tips sold globally. Sales in the second quarter of 2020 included four Viveve Systems sold and approximately 1,500 disposable treatment tips sold globally.

Under the subscription offering program, we placed six Viveve Systems in the U.S. market in the second quarter of 2021; however, these new placements were offset by the negative impact of the COVID-19 crisis on our sales activity in the period which resulted in the return of 14 Viveve Systems during the period. Under the subscription offering program, which was launched in June 2019, we placed nine Viveve Systems in the U.S. market in the second quarter of 2020. Rental revenue on these leases is recognized on a straight-line basis over the term of the lease. For the three months ended June 30, 2021 and 2020, rental revenue recognized during the period was \$233,000 and \$6,000, respectively.

Additionally, late in the first quarter of 2020 and through the second quarter of 2021, the negative impact of the COVID-19 pandemic was in full effect in the United States and most other countries. Government and public health agencies issued directives halting performance of non-essential medical treatments and elective procedures in an effort to combat the spread of the coronavirus and protect public health and safety. As a result, Viveve's customers either temporarily closed their medical practices or dramatically reduced services and staff. The consequence has been both a public health and economic crisis that continues for existing and prospective Viveve customers. In a supportive partnership response, Viveve contacted all of its subscription customers and provided them with a three-month deferral of the rental payment. Although clinics in various regions are beginning to re-open and provide limited services, we anticipate that until the COVID-19 pandemic abates, more practices begin to re-open and elective patient's safety concerns are reduced that we will continue to experience reduced revenue from existing subscription customers, as well as a greatly reduced number of new and prospective customers.

Gross profit

	Three Months Ended June 30,		Change	
	2021	2020	\$	%
				(in thousands, except percentages)
Gross profit (loss)	\$ 165	\$ (367)	\$ 532	145%

Gross profit was \$165,000, or 10% of revenue, for the three months ended June 30, 2021, compared to a gross loss of \$367,000, or 52% of revenue, for the three months ended June 30, 2020, an increase of \$532,000. The increase in gross profit was primarily due to the higher sales volume of Viveve Systems and treatment tips sold during the period. Additionally, fixed manufacturing costs in the first quarter of 2020 were spread over a lower sales volume thereby lowering gross margins.

Research and development expenses

	Three Months Ended June 30,		Change	
	2021	2020	\$	%
				(in thousands, except percentages)
Research and development	\$ 2,180	\$ 1,224	\$ 956	78%

Research and development expenses totaled \$2,180,000 for the three months ended June 30, 2021, compared to research and development expense of \$1,224,000 for the three months ended June 30, 2020, an increase of \$956,000, or approximately 78%. Spending on research and development increased primarily due to higher clinical study costs primarily due to the initiation of the pivotal U.S. PURSUIT clinical trial for the treatment of SUI with subject enrollment underway, partially offset by reduced engineering and development work related to our products as a result of our overall strategic organizational realignment to focus efforts to advance our SUI clinical development program and operational measures to lower costs and reduce cash burn in response to the continuing economic conditions caused by the COVID-19 crisis.

Selling, general and administrative expenses

	Three Months Ended June 30,		Change	
	2021	2020	\$	%
				(in thousands, except percentages)
Selling, general and administrative	\$ 2,930	\$ 3,350	\$ (420)	(13)%

Selling, general and administrative expenses totaled \$2,930,000 for the three months ended June 30, 2021, compared to \$3,350,000 for the three months ended June 30, 2020, a decrease of \$420,000, or approximately 13%. The decrease in selling, general and administrative expenses was primarily due to reduced spending as a result of the Company's organizational realignment to focus efforts to advance our SUI clinical development program and operational measures to lower costs and reduce cash burn in response to the continuing economic conditions caused by the COVID-19 crisis.

Gain on forgiveness of Paycheck Protection Program loan

	Three Months Ended June 30,		Change	
	2021	2020	\$	%
				(in thousands, except percentages)
Gain on forgiveness of Paycheck Protection Program loan	\$ 1,358	\$ -	\$ 1,358	NM

In May 2021, the Company's request for forgiveness of the PPP Loan was approved in full. The total principal amount and the accrued interest through the forgiveness payment date was forgiven. The Company recognized a gain on the extinguishment of debt in the amount of \$1,358,000.

Modification of warrants

	Three Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Modification of warrants	\$ 86	\$ 1,838	\$ (1,752)	(95)%

In May 2021, the Company reduced the exercise price of the outstanding Series B, A-2 and B-2 warrants from \$3.40 per share to \$2.817 per share pursuant to the terms of the warrants. The Series B, A-2 and B-2 warrant exercise price reduction resulted in the recognition of a modification expense of \$86,000.

In April 2020, the Company reduced the exercise price of the outstanding Series A and B warrants from \$15.50 per share to \$6.10 per share. The Series A and B warrant exercise price adjustment resulted in the recognition of a modification expense of \$1,838,000.

Interest expense, net

	Three Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Interest expense, net	\$ 245	\$ 223	\$ 22	10%

During the three months ended June 30, 2021, we had interest expense, net of \$245,000 compared to interest expense, net of \$223,000 for the three months ended June 30, 2020, a change of \$22,000, or approximately 10%. The increase resulted primarily from a higher term loan balance compared to the second quarter of 2020 due to the interest in-kind which was added to the total outstanding principal loan amount.

Other expense, net

	Three Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Other expense, net	\$ 53	\$ 27	\$ 26	96%

During the three months ended June 30, 2021, we had other expense, net of \$53,000 compared to \$27,000 for the three months ended June 30, 2020.

Loss from minority interest in limited liability company

	Three Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Loss from minority interest in limited liability company	\$ 79	\$ 86	\$ (7)	(8)%

The Company uses the equity method to account for its investment in InControl Medical, LLC ("ICM"). For the three months ended June 30, 2021, the allocated net loss from ICM's operations was \$79,000 compared to \$86,000 for the three months ended June 30, 2020.

Revenue

	Six Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Revenue	\$ 3,104	\$ 2,008	\$ 1,096	55%

We recorded revenue of \$3,104,000 for the six months ended June 30, 2021, compared to revenue of \$2,008,000 for the six months ended June 30, 2020, an increase of \$1,096,000, or approximately 55%. The increase in revenue was primarily due higher sales volume of Viveve Systems and treatment tips sold during the period. Sales in the first half of 2021 included sales of 15 Viveve Systems and approximately 5,900 disposable treatment tips sold globally. Sales in the first half of 2020 included sales of four Viveve System and approximately 3,900 disposable treatment tips sold globally.

Under the subscription offering program, we placed 10 Viveve Systems in the U.S. market in the first half of 2021; however, these new placements were offset by the negative impact of the COVID-19 crisis on our sales activity in the period which resulted in the return of 20 Viveve Systems during the period. Under the subscription offering program, which was launched in June 2019, we placed 11 Viveve Systems in the U.S. market in the first half of 2020. Rental revenue on these leases is recognized on a straight-line basis over the term of the lease. For the six months ended June 30, 2021 and 2020, rental revenue recognized during the period was \$689,000 and \$427,000, respectively.

Additionally, late in the first quarter of 2020 and through the second quarter of 2021, the negative impact of the COVID-19 pandemic was in full effect in the United States and most other countries. Government and public health agencies issued directives halting performance of non-essential medical treatments and elective procedures in an effort to combat the spread of the coronavirus and protect public health and safety. As a result, Viveve's customers either temporarily closed their medical practices or dramatically reduced services and staff. The consequence has been both a public health and economic crisis that continues for existing and prospective Viveve customers. In a supportive partnership response, Viveve contacted all of its subscription customers and provided them with a three-month deferral of the rental payment. Although clinics in various regions are beginning to re-open and provide limited services, we anticipate that until the COVID-19 pandemic abates, more practices begin to re-open and elective patient's safety concerns are reduced that we will continue to experience reduced revenue from existing subscription customers, as well as a greatly reduced number of new and prospective customers.

Gross profit

	Six Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Gross profit (loss)	\$ 547	\$ (192)	\$ 739	385%

Gross profit was \$547,000 or 18% of revenue for the six months ended June 30, 2021, compared to gross loss of \$192,000, or 10% of revenue, for the six months ended June 30, 2020, an increase of \$739,000, or approximately 385%. The increase in gross profit was primarily due to the higher sales volume of Viveve Systems and treatment tips sold during the period. Additionally, fixed manufacturing costs in the first quarter of 2020 were spread over a lower sales volume thereby lowering gross margins.

Research and development expenses

	Six Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Research and development	\$ 4,110	\$ 2,862	\$ 1,248	44%

Research and development expenses totaled \$4,110,000 for the six months ended June 30, 2021 compared to research and development expense of \$2,862,000 for the six months ended June 30, 2020, an increase of \$1,248,000 or approximately 44%. Spending on research and development increased primarily due to higher clinical study costs primarily due to the initiation of the pivotal U.S. PURSUIT clinical trial for the treatment of SUI with subject enrollment underway, partially offset by reduced engineering and development work related to our products as a result of our overall strategic organizational realignment to focus efforts to advance our SUI clinical development program and operational measures to lower costs and reduce cash burn in response to the continuing economic conditions caused by the COVID-19 crisis.

Selling, general and administrative expenses

	Six Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Selling, general and administrative	\$ 6,511	\$ 7,715	\$ (1,204)	(16)%

Selling, general and administrative expenses totaled \$6,511,000 for the six months ended June 30, 2021, compared to \$7,715,000 for the six months ended June 30, 2020, a decrease of \$1,204,000 or approximately 16%. The decrease in selling, general and administrative expenses was primarily due to reduced spending as a result of the Company's organizational realignment to advance our SUI clinical development program and operational measures to lower costs and reduce cash burn in response to the continuing economic conditions caused by the COVID-19 crisis.

Gain on forgiveness of Paycheck Protection Program loan

	Six Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Gain on forgiveness of Paycheck Protection Program loan	\$ 1,358	\$ -	\$ 1,358	NM

In May 2021, the Company's request for forgiveness of the PPP Loan was approved in full. The total principal amount and the accrued interest through the forgiveness payment date was forgiven. The Company recognized a gain on the extinguishment of debt in the amount of \$1,358,000.

Modification of Warrants

	Six Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Modification of warrants	\$ 373	\$ 1,838	\$ (1,465)	(80)%

In January 2021, the Company reduced the exercise price of the outstanding Series B, A-2 and B-2 warrants pursuant to the terms of the warrants. The exercise price for Series B warrants was reduced from \$6.10 per share to \$3.40 per share. The exercise price for Series A-2 and B-2 warrants was reduced from \$6.371 per share to \$3.40 per share. The Series B, A-2 and B-2 warrant exercise price reduction resulted in the recognition of a modification expense of \$287,000.

In May 2021, the Company reduced the exercise price of the outstanding Series B, A-2 and B-2 warrants from \$3.40 per share to \$2.817 per share pursuant to the terms of the warrants. The Series B, A-2 and B-2 warrant exercise price reduction resulted in the recognition of a modification expense of \$86,000.

In April 2020, the Company reduced the exercise price of the outstanding Series A and B warrants from \$15.50 per share to \$6.10 per share. The Series A and B warrant exercise price adjustment resulted in the recognition of a modification expense of \$1,838,000.

Interest expense, net

	Six Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Interest expense, net	\$ 479	\$ 433	\$ 46	11%

During the six months ended June 30, 2021, we had interest expense, net of \$483,000, compared to interest expense, net of \$433,000 for the six months ended June 30, 2020, a change of \$50,000, or approximately 12%. The increase resulted primarily from a higher term loan balance compared to the first half of 2020 due to the interest in-kind which was added to the total outstanding principal loan amount.

Other expense, net

	Six Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Other expense, net	\$ 118	\$ 117	\$ 1	1%

During the six months ended June 30, 2021, we had other expense, net, of \$114,000, compared to \$117,000 for the six months ended June 30, 2020.

Loss from minority interest in limited liability company

	Six Months Ended June 30,		Change	
	2021	2020	\$	%
	(in thousands, except percentages)			
Loss from minority interest in limited liability company	\$ 155	\$ 268	\$ (113)	(42)%

The Company uses the equity method to account for its investment in ICM. For the six months ended June 30, 2021, the allocated net loss from ICM's operations was \$155,000, compared to \$268,000 for the six months ended June 30, 2020.

Liquidity and Capital Resources

Comparison of the Six Months Ended June 30, 2021 and 2020

Since inception, the Company has sustained significant operating losses and such losses are expected to continue for the foreseeable future. The Company had an accumulated deficit of \$229,667,000 as of June 30, 2021. Additionally, the Company used \$6,988,000 in cash for operations in the six months ended June 30, 2021. However, the Company's financing activities provided cash of \$25,934,000 during the six months ended June 30, 2021, including \$25,122,000 in net proceeds from the January 2021 Offering, \$633,000 in net proceeds from purchase of common shares under the Purchase Agreement with LPC and \$179,000 proceeds from the exercise of common warrants. As of June 30, 2021, the Company had cash and cash equivalents of \$25,391,000 and working capital of \$27,753,000 as well as the remaining equity financing commitment from LPC of approximately \$9,000,000. Accordingly, management expects that our cash will be sufficient to fund our activities for at least the next twelve months through August 2022; however, we may require additional funds to fully implement our plan of operation.

To fund further operations, the Company may need to raise additional capital. The Company may obtain additional financing in the future through the issuance of its common stock, or through other equity or debt financings. The Company's ability to continue as a going concern or meet the minimum liquidity requirements in the future is dependent on its ability to raise significant additional capital, of which there can be no assurance. If the necessary financing is not obtained or achieved, the Company will likely be required to reduce its planned expenditures, which could have an adverse impact on the results of operations, financial condition and the Company's ability to achieve its strategic objective. There can be no assurance that financing will be available on acceptable terms, or at all.

The following table summarizes the primary sources and uses of cash for the periods presented below (in thousands):

	Six Months Ended June 30,	
	2021	2020
Net cash used in operating activities	\$ (6,988)	\$ (10,189)
Net cash used in investing activities	(78)	(292)
Net cash provided by financing activities	25,934	5,673
Net increase (decrease) in cash and cash equivalents	<u>\$ 18,868</u>	<u>\$ (4,808)</u>

Operating Activities

We have incurred, and expect to continue to incur, significant expenses in the areas of research and development, regulatory and clinical study costs, associated with the Viveve System.

Operating activities used \$6,988,000 for the six months ended June 30, 2021 compared to \$10,189,000 used for the six months ended June 30, 2020. The primary use of our cash was to fund selling, general and administrative expenses and research and development expenses associated with the Viveve System. Net cash used during the six months ended June 30, 2021 consisted of a net loss of \$9,841,000 adjusted for non-cash expenses including provision for doubtful accounts \$89,000, depreciation and amortization of \$636,000, stock-based compensation of \$1,677,000, non-cash interest expense of \$291,000, a loss from minority interest in limited liability company of \$155,000, a loss on disposal of property and equipment of \$9,000, a noncash charge for the modification of warrants of \$373,000, a gain on the extinguishment of debt of \$1,358,000 related to forgiveness of the PPP Loan and cash inflows from changes in operating assets and liabilities of \$964,000. The change in operating assets and liabilities was primarily due to a increase in accounts receivable of \$15,000, a decrease in inventory of \$855,000, a decrease in prepaid expenses and other current assets of \$308,000, a decrease in other noncurrent assets of \$141,000, a decrease in accounts payable \$219,000, a decrease in accrued and other liabilities of \$317,000, and an increase of other noncurrent liabilities of \$211,000.

Net cash used during the six months ended June 30, 2020 consisted of a net loss of \$13,425,000 adjusted for non-cash expenses including provision for doubtful accounts of \$229,000, depreciation and amortization of \$651,000, stock-based compensation of \$1,367,000, non-cash interest expense of \$258,000, amortization of operating lease right-of-use assets and accretion of operating lease liabilities of \$5,000, a loss from minority interest in limited liability company of \$268,000, a noncash charge for the modification of warrants of \$1,838,000 and cash outflows from changes in operating assets and liabilities of \$1,380,000. The change in operating assets and liabilities was primarily due to a decrease in accounts receivable of \$327,000, an increase in inventory of \$222,000, a decrease in prepaid expenses and other current assets of \$526,000, a decrease in other noncurrent assets of \$417,000, a decrease in accounts payable \$351,000, a decrease in accrued and other liabilities of \$2,132,000, and an increase of other noncurrent liabilities of \$55,000.

Investing Activities

Net cash used in investing activities during the six months ended June 30, 2021 and 2020 was \$78,000 and \$292,000, respectively. Net cash used in investing activities during the six months ended June 30, 2021 and 2020 was used for the purchase of property and equipment. We expect to continue to purchase property and equipment in the normal course of our business. The amount and timing of these purchases and the related cash outflows in future periods is difficult to predict and is dependent on a number of factors including, but not limited to, any changes to the capital equipment requirements related to our recurring revenue rental model, development programs and clinical trials and increase in the number of our employees.

Financing Activities

Net cash provided by financing activities during the six months ended June 30, 2021 was \$25,934,000, which was the result of net proceeds of \$25,122,000 from the January 2021 Offering net of issuance costs, \$704,000 from purchase of common stock in connection with the Purchase Agreement with LPC and proceeds of \$179,000 from exercises of common warrants, partially offset by transaction costs of \$71,000 in connection with the Purchase Agreement with LPC.

Net cash provided by financing activities during the six months ended June 30, 2020 was \$5,673,000, which was the result of gross proceeds of \$4,800,000 from exercises of Series A and B warrants, proceeds of \$1,343,000 from the PPP Loan and proceeds of \$341,000 from the initial purchase of common shares under the Purchase agreement from LPC, partially offset by transaction costs of \$326,000 in connection with the 2020 Warrant Offering, transaction costs of \$452,000 in connection with the Purchase Agreement with LPC and additional transaction costs of \$33,000 in connection with our November 2019 Offering.

Contractual Payment Obligations

We have obligations under a bank term loan and non-cancelable operating leases. As of June 30, 2021, our contractual obligations were as follows (in thousands):

Contractual Obligations (including interest):	Total	Less than 1 Year	1 - 3 Years	3 -5 Years	More than 5 Years
CRG note payable	\$ 5,992	\$ -	\$ 5,992	\$ -	\$ -
Non-cancellable operating lease obligations	768	276	492	-	-
Total	\$ 6,760	\$ 276	\$ 6,484	\$ -	\$ -

In February 2017, we entered into a sublease for approximately 12,400 square feet of building space for the relocation of the Company's corporate headquarters to Englewood, Colorado. The lease term was 36 months and the monthly base rent for the first, second and third years was \$20.50, \$21.12 and \$21.75 per rentable square foot, respectively. In connection with the execution of the sublease, the Company paid a security deposit of approximately \$22,000. The Company was also entitled to an allowance of approximately \$88,000 for certain tenant improvements relating to the engineering, design and construction of the sublease premises. The lease term commenced in June 2017 and was to terminate in May 2021. In March 2021, the Company amended the sublease for its office building space. The lease term was extended for a period of 34 months and will terminate on March 31, 2024. The monthly gross rent for the first, second and third years of the lease extension is \$21,028, \$21,643 and \$22,258 per month, respectively. The Company was also provided a rent abatement for the month of June 2021. Additionally, the sublandlord has agreed to perform certain construction, repair, maintenance or other tenant improvements to the subleased premises with estimated costs of approximately \$19,000.

In May 2017, the Company entered into the 2017 Loan Agreement with affiliates of CRG LP ("CRG"). The credit facility consists of \$20,000,000 that was drawn at closing and the ability to access additional funding of up to an aggregate of \$10,000,000 for a total of \$30,000,000 under the credit facility. In December 2017, the Company accessed the remaining \$10,000,000 available under the CRG credit facility. The term of the loan is six years with the first four years being interest only. In November 2019, the Company and CRG amended the 2017 Loan Agreement concurrent with the conversion of approximately \$29,000,000 of the principal amount under the term loan with CRG (plus accrued interest, the prepayment premium and the back-end fee applicable thereto), for an aggregate amount of converted debt obligations of approximately \$31,300,000. The amounts converted into 31,300 shares of the newly authorized Series B convertible preferred stock and warrants to purchase up to 989,379 shares of common stock were also issued. The outstanding principal balance under the 2017 Loan Agreement was \$4,809,000 as of June 30, 2021.

In September 2018, the Company entered into a 36-month noncancelable operating lease agreement for office equipment. The monthly payment is approximately \$3,000.

Critical Accounting Policies and Estimates

The discussion and analysis of financial condition and results of operations is based upon our condensed consolidated financial statements, which have been prepared in conformity with accounting principles generally accepted in the United States of America. Certain accounting policies and estimates are particularly important to the understanding of our financial position and results of operations and require the application of significant judgment by our management or can be materially affected by changes from period to period in economic factors or conditions that are outside of our control. As a result, they are subject to an inherent degree of uncertainty. In applying these policies, management uses their judgment to determine the appropriate assumptions to be used in the determination of certain estimates. Those estimates are based on our historical operations, our future business plans and projected financial results, the terms of existing contracts, observance of trends in the industry, information provided by our customers and information available from other outside sources, as appropriate. Please see Note 2 to our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2020, that was filed with the SEC on March 18, 2021. There have been no material changes to the significant accounting policies during the six months ended June 30, 2021.

Recent Accounting Pronouncements

In December 2019, the FASB issued ASU 2019-12, "Income Taxes (Topic 740)". The amendments in this Update provide further simplification of accounting standards for the accounting for income taxes. Certain exceptions for are removed and requirements regarding the accounting for franchise taxes, tax basis of goodwill, and tax law rate changes are made. This guidance is effective for annual reporting periods beginning after December 15, 2020, including interim periods within that reporting period, with early adoption permitted. We adopted this guidance as of January 1, 2021, and the adoption of the guidance did not have a significant impact on the condensed consolidated financial statements.

We have reviewed other recent accounting pronouncements and concluded they are either not applicable to the business, or no material effect is expected on the condensed consolidated financial statements as a result of future adoption.

Off-Balance Sheet Transactions

We do not have any off-balance sheet transactions.

Trends, Events and Uncertainties

Research, development and commercialization of new technologies and products is, by its nature, unpredictable. Although we will undertake development efforts, including efforts with commercially reasonable diligence, there can be no assurance that we will have adequate capital to develop or commercialize our technology to the extent needed to create future sales to sustain our operations.

We cannot assure you that our technology will be adopted, that we will ever earn revenues sufficient to support our operations, or that we will ever be profitable. Furthermore, since we have no committed source of financing, we cannot assure you that we will be able to raise money as and when we need it to continue our operations. If we cannot raise funds as and when we need them, we may be required to severely curtail, or even to cease, our operations.

Other than as discussed above and elsewhere in this Quarterly Report on Form 10-Q, we are not aware of any trends, events or uncertainties that are likely to have a material effect on our financial condition.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to market risk related to changes in interest rates. As of June 30, 2021, our cash and cash equivalents consisted of cash and interest-bearing accounts. Our primary exposure to market risk is interest income sensitivity, which is affected by changes in the general level of U.S. interest rates. However, since a majority of our investments are in highly liquid interest-bearing accounts, we do not believe we are subject to any material market risk exposure. As of June 30, 2021, we did not have any material derivative financial instruments. The fair value of our cash and cash equivalents was \$25.4 million as of June 30, 2021.

We are also exposed to market risk related to changes in foreign currency exchange rates. From time to time, we contract with vendors or service providers that are located outside the U.S., which are denominated in foreign currencies. We are subject to fluctuations in foreign currency rates in connection with these agreements. We do not currently hedge our foreign currency exchange rate risk. As of June 30, 2021 and December 31, 2020, we had minimal liabilities denominated in foreign currencies.

We do not believe that inflation had a material effect on our business, financial condition or results of operations during the six months ended June 30, 2021 and 2020.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial and accounting officer, as appropriate, to allow timely decisions regarding required disclosure.

We carried out an evaluation under the supervision and with the participation of management, including our principal executive officer and principal financial and accounting officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2021, the end of the period covered by this Quarterly Report on Form 10-Q. Based upon the evaluation of our disclosure controls and procedures as of June 30, 2021, our Chief Executive Officer (principal executive officer) and Senior Vice President of Finance and Administration (principal accounting and financial officer) concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level. In addition, our ability to maintain an effective internal control environment has not been impacted by the COVID-19 pandemic.

Changes in Internal Control over Financial Reporting

No changes in the Company's internal control over financial reporting have come to management's attention during the Company's last fiscal quarter that have materially affected, or are likely to materially affect, the Company's internal control over financial reporting.

PART II-OTHER INFORMATION

Item 1. Legal Proceedings.

Except as disclosed below and in our Annual Report on Form 10-K for the year ended December 31, 2020, we are not subject to any material pending legal proceedings. From time to time, we may be involved in routine legal proceedings, as well as demands, claims and threatened litigation, which arise in the normal course of our business.

Item 1A. Risk Factors.

We incorporate herein by reference the risk factors included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2020, filed with the Securities and Exchange Commission on March 18, 2021.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Unregistered Sales of Securities

Series B Preferred Stock

Pursuant to the Certificate of Designation of the Company's Series B preferred stock, we issued 2,271 shares of Series B preferred stock in lieu of \$2,271,000 in cash dividend to holders of Series B preferred stock, exempt from registration pursuant to Section 4(a)(2) of the Securities Act, on June 30, 2021.

The shares of Series B preferred stock will only be convertible into common stock, following such time as we have filed an amendment to the certificate of incorporation that authorizes at least 125,000,000 shares of common stock. We may remove the requirement of authorized common stock increase for the conversion of Series B preferred stock to enable CRG to convert its shares to common stock. The conversion or exercise of securities issued to affiliates of CRG are also further subject to certain beneficial ownership restrictions. If the Series B preferred stock becomes convertible into common stock, it will be convertible into that number of shares of common stock determined by dividing \$1,000 by the conversion price of \$15.30.

Item 3. Defaults Upon Senior Securities.

Not applicable.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

**Certification of Principal Executive Officer
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.**

I, Scott Durbin, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for Viveve Medical, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
